

The meeting will include an overview of where and how health data standards are used across public health functions, and the current status of public health data standards. The hearing will provide an opportunity for the Standards Subcommittee to hear from individuals representing public health data standards organizations, public health agencies, standards developers, and software/application vendors. Important work has been done in standard development organizations to advance the development of public health standards, and these developments will be highlighted in the discussion.

In addition, the Subcommittees on Population Health and Privacy, Confidentiality and Security will explore the need for convening a future hearing to focus on important considerations for standardized definitions of public health variables, privacy and security, population health management, and community health data, building on recent work by the Committee on health information standardization and community health data initiatives.

SUPPLEMENTARY INFORMATION:

Proposed Project

Evaluation of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) Quality Demonstration Grant Program: Qualitative Data Collection

Section 401(a) of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), Public Law 111-3, amended the Social Security Act (the Act) to enact section 1139A (42 U.S.C. 1320b-9a). AHRQ is requesting approval from the Office of Management and Budget (OMB) for the collection of qualitative data through site visit interviews and focus groups to support a comprehensive, mixed-methods evaluation of the quality demonstration grants authorized under section 1139A(d) of the Act. AHRQ's mission of improving the quality and effectiveness of health care in the United States aligns with evaluating whether, and through what mechanism, projects funded by the CHIPRA demonstration grants improve the quality of care received by children in Medicaid and the Children's Health Insurance Program (CHIP).

CHIPRA included funding for five-year grants so that States can experiment with and evaluate several promising ideas related to improving
