

Natives (AI/AN) tribal governments to all available programs in the Department of Health and Human Services (HHS), and coordinate the tribal consultation activities associated with formulation of the IHS annual budget request. The application is for a five year project which will commence with an initial award on March 15, 2004. The initial budget period will be awarded at \$227,00.00 and the entire project is expected to be awarded at \$1,135,000.00.

The award is issued under the authority of the Public Health Service Act, section 301(a) and is included under the Catalog of Federal Domestic Assistance number 93.933. The specific objectives of the project are to:

1. Provide ongoing technical advice and consultation as the national Indian organization that is representative of all tribal governments in the area of health care policy analysis and program development.

2. Assure that health care advocacy is based on tribal input through a broad-based consumer network involving the Area Indian Health Boards or Health Board Representatives from each of the 12 IHS Areas.

3. Establish relationships with other national Indian organizations, with professional groups and with Federal, State and local entities to serve as advocates for AI/AN health programs. As a recipient of a grant/cooperative agreement, the NIHB is prohibited from conducting lobbying activities using Federal funding.

4. Improve and expand access for AI/AN tribal governments to all available programs in the HHS.

5. Publish, at least three times a year, a newsletter featuring articles on health promotion/disease prevention activities and models of best or improving practices, health policy and funding information relevant to AI/AN, *etc.*

6. Disseminate timely health care information to tribal governments, AI/AN Health Boards, other national Indian organizations, professional groups, Federal, State, and local entities.

7. Coordinate the tribal consultation activities associated with formulation of the IHS annual budget request.

Justification for Single Source: This project has been awarded on a non-competitive single source basis. NIHB is the only national AI/AN organization with health expertise that represents the interest of all federally recognized tribes.

Use of Cooperative Agreement: A non-competitive single source Cooperative Agreement Award will involve:

1. IHS staff will review articles concerning the Agency for accuracy and

may, as requested by the NIHB, provide articles.

2. IHS staff will have approval over the hiring of key personnel as defined by regulation or provision in the cooperative agreement.

3. IHS will provide technical assistance to the NIHB as requested and attend and participate in all NIHB Board meetings.
