

Applicants and their governing boards should meet with Agency officials before a preapplication is filed to discuss eligibility requirements and processing procedures. Documentation submitted along with a reapplication will vary depending on the nature, scope, and complexity of the project and the various stages of application and project development. Applicants for assistance from the State of North Carolina will compete for funding on a month-to-month basis until funds are exhausted. Loan and grant funds from the Emergency Supplemental Program funds will be held in a National Office reserve. Applications will be prioritized, and funds will be obligated to eligible entities twice during the fiscal year.

Selection Process

Once a determination has been made that an applicant is eligible, the preapplication is evaluated competitively and points awarded as specified in the project selection priorities contained in 7 CFR part 1942, subparts A and C, and 7 CFR part 3570, subpart B. For Emergency Supplemental Program funds, the State Director or designee will forward the request to the National Office to compete for funding consideration. Projects will then be rated, ranked, and selections made in order of priority. For North Carolina Emergency Supplemental Program funds, the North Carolina State Director will approve funding based on the project's priority points.

Notice of Invitation To Submit Complete Application

All preapplications selected for funding consideration will be notified by the State or field office by issuing Form AD-622, "Notice of Preapplication Review Action." At that time, the proposed recipient will be invited to submit a complete application, along with instructions related to the agreed upon award amount, and asked to schedule an application conference to discuss items needed for formal application and to further clarify issues related to the project.

Final Approval and Funding Process

Final approval is subject to the availability of funds; the submission by the applicant of a formal, complete application and related materials that meet the program requirements and responsibilities of the applicant (contained in 7 CFR part 1942, subparts A and C, and 7 CFR part 3570, subpart B); the letter of conditions; and the grant agreement.

Those preapplications that do not have sufficient priority necessary to receive funding consideration will be notified, in writing, by the State or designated field office when funds are no longer available.
