Foreign-Trade Zones Board
[Order No. 1898]
Reorganization of Foreign-Trade Zone
241 Under Alternative Site Framework
Fort Lauderdale, Florida

Pursuant to its authority under the Foreign-
Trade Zones Act of June 18, 1934, as
amended (19 U.S.C. 81a-81u), the Foreign-
Trade Zones Board (the Board) adopts the
following Order:
Whereas, the Board adopted the
alternative site framework (ASF) (15
CFR 400.2(c)) as an option for the

establishment or reorganization of
zones;
Whereas, the City of Fort Lauderdale,
grantee of Foreign-Trade Zone 241,
submitted an application to the Board
(FTZ Docket B-48-2012, docketed 6/27/
2012) for authority to reorganize under
the ASF with a service area comprised
of portions of Broward County, Florida
(as described in the application),
adjacent to the Port Everglades Customs
and Border Protection port of entry, to
modify Site 1 by removing acreage, to
expand Sites 2 and 4, to remove Site 3
in its entirety from the zone, and to
categorize FTZ 241's Sites 1, 2 and 4 as
magnet sites and Site 5 as a usage-
driven site;
Whereas, notice inviting public
comment was given in the **Federal
Register** (77 FR 39466-39467, 7/3/2012)
and the application has been processed
pursuant to the FTZ Act and the Board's
regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied with respect to the ASF reorganization, modification of Site 1 and removal of Site 3 (but not with respect to the proposed expansion of Sites 2 and 4);

Now, therefore, the Board hereby orders:

The application to reorganize and expand FTZ 241 under the ASF is approved in part (as it relates to the ASF reorganization, modification of Site 1 and removal of Site 3), subject to the FTZ Act and the Board's regulations, including Section 400.13, to the Board's standard 2,000-acre activation limit for the zone, to a five-year ASF sunset provision for magnet sites that would terminate authority for existing Sites 2 and 4 if not activated by April 30, 2018, and to a three-year ASF sunset provision for usage-driven sites that would terminate authority for Site 5 if no foreign-status merchandise is admitted for a *bona fide* customs purpose by April 30, 2016.

Signed at Washington, DC, this 30th day of May 2013.

Paul Piquado,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign Trade Zones Board.

ADDRESSES: The meeting will be held at the Renaissance International Plaza Hotel, 4200 Jim Walter Boulevard, Tampa, FL 33607; telephone: (813) 877-9200.

SUPPLEMENTARY INFORMATION: The Standing, Special Mackerel and Special Reef Fish SSCs will initially meet jointly on Wednesday, May 29, 2013 to elect a chair and vice chair. Afterwards, the Standing and Special Mackerel SSC will review the final results of the SEDAR 28 cobia and Spanish mackerel benchmark assessments. The SSC previously reviewed the assessments at its March 27-28, 2013 meeting, but was unable to recommend acceptable biological catch (ABC) levels because a number of questions remained on the use of certain parameters necessary to produce the probability distribution functions (PDFs) needed to determine overfishing limit (OFL) and ABC. These included whether to use a proxy value for the fishing mortality rate at maximum sustainable yield (MSY), what value to use for the steepness of the spawner-recruit curve, and how to incorporate uncertainty with respect to the natural mortality rate estimate into the results. The analysts sought advice from the SSC at the March meeting, where it was determined that a proxy based on 30% spawning potential ratio should be used for the fishing mortality rate at MSY, a fixed steepness value of 0.8 be used for the spawner-recruit curve, and a weighted average of PDFs under several estimates of natural mortality be used to account for the uncertainty. Based on the completed analyses, the SSC will determine whether to accept the assessments, and if accepted, will recommend ABC for cobia and Spanish mackerel. The SSC will also review terms of reference for the upcoming SEDAR 38 (king mackerel) benchmark assessment, and will solicit for participants in SEDAR 38 workshops.

Following the Standing and Special Mackerel SSC session, the Standing and Special Reef Fish SSC will meet for the remainder of the meeting on Wednesday, May 29, 2013 through Friday, May 31, 2013. The SSC will receive a presentation on SEDAR 31 red snapper benchmark assessment; determine whether to accept the

assessment, and if accepted, will recommend ABC for red snapper that is consistent with the rebuilding plan. The SSC will also discuss the impact of explosive oil and gas rig removals on the red snapper stock. Copies of the agenda and other related materials can be obtained by calling (813) 348-1630 or can be downloaded from the Council's ftp site, <ftp:gulfcouncil.org>.

Although other non-emergency issues not on the agenda may come before the Scientific and Statistical Committees for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Actions of the Scientific and Statistical Committees will be restricted to those issues specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Council (see **ADDRESSES**) at least 5 working days prior to the meeting.
