**Endangered and Threatened Species;
Receipt of Recovery Permit
Applications**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of receipt of permit
applications; request for comments.

SUMMARY: We, the U.S. Fish and
Wildlife Service, have received
applications for permits to conduct
activities intended to enhance the
propagation or survival of endangered
or threatened species under the
Endangered Species Act. We invite the
public and local, State, Tribal, and
Federal agencies to comment on these
applications. Before issuing any of the
requested permits, we will take into
consideration any information that we
receive during the public comment
period.

DATES: We must receive your written
comments on or before April 3, 2019.

ADDRESSES: Use one of the following
methods to request documents or
submit comments. Requests and
comments should specify the applicant
name(s) and application number(s) (*e.g.*,
TE123456):

- *Email:* permitsR5ES@fws.gov.
- *U.S. Mail:* Abby Gelb, Ecological
Services, U.S. Fish and Wildlife Service,
300 Westgate Center Dr. Hadley, MA
01035.

FOR FURTHER INFORMATION CONTACT:
Abby Gelb, 413-253-8212 (phone), or
permitsR5ES@fws.gov (email).
Individuals who are hearing or speech
impaired may call the Federal Relay
Service at 1-800-877-8339 for TTY
assistance.

SUPPLEMENTARY INFORMATION: We, the
U.S. Fish and Wildlife Service, invite
the public to comment on applications
for permits under section 10(a)(1)(A) of
the Endangered Species Act of 1973, as
amended (ESA; 16 U.S.C. 1531 *et seq.*).
The requested permits would allow the
applicants to conduct activities
intended to promote recovery of species
that are listed as endangered or
threatened under the ESA.

Background

With some exceptions, the ESA
prohibits activities that constitute take
of listed species unless a Federal permit
is issued that allows such activity. The
ESA's definition of "take" includes such
activities as pursuing, harassing,
trapping, capturing, or collecting in
addition to hunting, shooting, harming,
wounding, or killing.

A recovery permit issued by us under
section 10(a)(1)(A) of the ESA
authorizes the permittee to conduct
activities with endangered or threatened
species for scientific purposes that
promote recovery or for enhancement of
propagation or survival of the species.
Our regulations implementing section
10(a)(1)(A) for these permits are found
at 50 CFR 17.22 for endangered wildlife
species, 50 CFR 17.32 for threatened
wildlife species, 50 CFR 17.62 for
endangered plant species, and 50 CFR
17.72 for threatened plant species.
