preferred. Laboratory representatives should have a level of experience with firearms and ballistics testing to be considered an expert in testing methodology. If provisionally selected to serve on the STC, candidates should expect to disclose any financial conflicts of interest with firearms or ammunition manufacturers for assessment prior to final selection.

NIJ anticipates that the STC will meet for two to three days in the Washington, DC area approximately four to five times over the course of approximately 18-24 months starting sometime in 2017. The remainder of the work will be conducted by telephone and email. It is expected that travel and per diem expenses for travel originating outside the local Washington, DC area will be reimbursed; however, participation time will not be reimbursed. Any potential reimbursements are subject to, inter alia, the availability of appropriated funds, and to any modifications or additional requirements that may be imposed by law.

NIJ anticipates that its Compliance Testing Program (CTP), which currently certifies ballistic-resistant body armor, stab-resistant body armor, and autoloading pistols, will incorporate both shotguns and patrol rifles for certification once the new standards are complete. More information on the Autoloading Pistols CTP is available at <a href="https://justnet.org/compliant/">https://justnet.org/compliant/</a>
Autoloading-Pistols.html. The STC should expect to discuss the CTP certification process and conformity assessment in general during the standards development process.

### Determinations Terminating Investigations of Petitions for Worker Adjustment Assistance

After notice of the petitions was published in the **Federal Register** and

on the Department's Web site, as required by Section 221 of the Act (19 U.S.C. 2271), the Department initiated investigations of these petitions. The following determinations terminating investigations were issued because the petitioner has requested that the petition be withdrawn.

92,462	Parker-Hannifin Corporation	Anaheim, CA.	

The following determinations terminating investigations were issued in cases where these petitions were not filed in accordance with the requirements of 29 CFR 90.11. Every petition filed by workers must be signed

by at least three individuals of the petitioning worker group. Petitioners separated more than one year prior to the date of the petition cannot be covered under a certification of a petition under Section 223(b), and therefore, may not be part of a petitioning worker group. For one or more of these reasons, these petitions were deemed invalid.

The following determinations terminating investigations were issued because the petitioning groups of workers are covered by active certifications. Consequently, further investigation in these cases would serve no purpose since the petitioning group of workers cannot be covered by more than one certification at a time.

The following determinations terminating investigations were issued because the Department issued a negative determination on petitions related to the relevant investigation period applicable to the same worker group. The duplicative petitions did not present new information or a change in circumstances that would result in a reversal of the Department's previous negative determination, and therefore, further investigation would duplicate efforts and serve no purpose.
