

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–0361.

Proposed Project: 2023–2026 National Survey on Drug Use and Health: Methodological Field Tests (OMB No. 0930–0290)—Extension

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to provide estimates of substance use and mental illness at the national, state, and substate levels.

NSDUH data also help to identify the extent of substance use and mental illness among different subgroups, estimate trends over time, and determine the need for treatment services. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), Federal Government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources. Methodological tests will continue to examine the feasibility, quality, and efficiency of new procedures or revisions to existing survey protocol. Specifically, the tests will measure the reliability and validity of certain questionnaire sections and items through multiple measurements on a set of respondents; assess new methods for gaining cooperation and participation of respondents with the goal of increasing response and decreasing potential bias in the survey estimates; and assess the impact of new sampling techniques and technologies on respondent behavior and reporting. Research will involve focus groups, cognitive laboratory testing, and field tests. Prior to each

methodological test, a separate clearance memo (under this generic clearance) will be presented to OMB for review. These methodological tests will continue to examine ways to increase data quality, lower operating costs, and gain a better understanding of sources and effects of non-sampling error on NSDUH estimates. Particular attention will be given to minimizing the impact of design changes so survey data can be comparable over time. If findings suggest changes that might lead to improvements to the study, current procedures or data collection instruments may be revised. The number of respondents to be included in each field test will vary, depending on the nature of the subject being tested and the target population. However, the total estimated response burden is 14,801 hours. The exact number of subjects and burden hours for each test are unknown at this time, but will be clearly outlined in each individual submission. These estimated burden hours over three years are as follows:

ESTIMATED TOTAL BURDEN FOR NSDUH METHODOLOGICAL FIELD TESTS

Activity	Number of respondents	Responses per respondent	Total number of responses	Average burden per response	Total burden (hrs.)
a. Focus Groups .....	378	1	378	2.0 hrs .....	756
b. Respondent screening for a .....	473	1	473	0.083 hr .....	39
c. Cognitive testing .....	420	1	420	1.0 hr .....	420
d. Respondent screening for c .....	800	1	800	0.083 hr .....	66
e. Field Tests .....	12,000	1	12,000	1.0 hr .....	12,000
f. Household screening for e .....	16,200	1	16,200	0.083 hr .....	1,345
g. Screening Verification for e .....	804	1	804	0.067 hr .....	54
h. Interview Verification for e .....	1,800	1	1,800	0.067 hr .....	121
Total .....	32,875	.....	32,875	.....	14,801

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Meeting of the Substance Abuse and Mental Health Services Administration Center for Substance Abuse Prevention National Advisory Council; Correction

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice; correction.

SUMMARY: The Substance Abuse and Mental Health Services Administration published a document in the **Federal Register** of April 5, 2023, announcing the meeting of the SAMHSA Center for Substance Abuse Prevention National

Advisory Council (CSAP NAC) of April 25, 2023. The document contained incorrect date in the **DATES** section.

FOR FURTHER INFORMATION CONTACT: Michelle Mcvay, [michelle.mcvay@samhsa.hhs.gov](mailto:michelle.mcvay@samhsa.hhs.gov). Telephone number (240) 276–0446.

SUPPLEMENTARY INFORMATION: Correction

In the **Federal Register** of April 5, 2023, in FR Doc. 2023–07033, on page 20175, in the second column, correct the **DATES** caption to read:

**DATES:** April 25, 2023, 9:00 a.m. to approximately 4:00 p.m. EDT, Open

Dated: April 5, 2023.

**Carlos Castillo,**

*Committee Management Officer.*

## DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA-2023-0008]

### Agency Information Collection Activities: Telecommunications Service Priority System

**AGENCY:** Emergency Communications Division, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.

**ACTION:** 60-Day notice and request for comments; extension, 1670-0005.

**SUMMARY:** The Department of Homeland Security (DHS) invites the general public and other federal agencies the opportunity to comment on approved information collection request (ICR) OMB 1670-0005, Telecommunications Service Priority (TSP) System.

**DATES:** Comments are encouraged and will be accepted until June 9, 2023.

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be sent to [tcp@cisa.dhs.gov](mailto:tcp@cisa.dhs.gov).

○ *Federal eRulemaking Portal:* <http://www.regulations.gov>. Please follow the instructions for submitting comments.

*Instructions:* All submissions received must include the agency name and docket number Docket # CISA-2022-0008. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

*Docket:* For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

**SUPPLEMENTARY INFORMATION:** TSP is authorized by E.O. 13618 and 47 CFR part 64. The Emergency Communications Division (ECD) of the Department of Homeland Security (DHS) Cybersecurity and Infrastructure Security Agency (CISA), uses the TSP Program to authorize national security and emergency preparedness organizations to receive priority treatment for vital voice and data circuits or other telecommunications service, under National Security or Emergency Preparedness telecommunications (NS/EP). The TSP

Program provides service vendors a Federal Communications Commission (FCC) mandate to prioritize requests by identifying those services critical to national security and emergency preparedness. A TSP assignment ensures that it will receive priority attention by the service vendor before any non-TSP service.

Four broad categories serve as guidelines for determining whether a circuit or telecommunications service is eligible for priority provisioning or restoration. TSP service user organizations may be in the Federal, State, local, or tribal government, critical infrastructure sectors in industry, non-profit organizations that perform critical NS/EP functions, or foreign governments. Typical TSP service users are responsible for the command-and-control functions critical to management of and response to NS/EP situations, particularly during the first 24 to 72 hours following an event.

Information to request a priority, to obtain a sponsor for requesting a priority, and for other administrative requirements of the program is required from any person or organization having an NS/EP service for which they wish priority restoration from the vendor providing the service. Information is also required to allow immediate installation of a new service to support NS/EP requirements. Information is required from vendors to allow the ECD to track and identify the telecommunications services that are being provided priority treatment.

The forms used are the SF314 (Revalidation for Service Users), SF315 (TSP Request for Service Users), SF317 (TSP Action Appeal for Service Users), SF318 (TSP Service Confirmation for Service Vendors), and the SF319 (TSP Service Reconciliation for Service Vendors). The SF314 is for users to request that their existing TSP codes be revalidated for three more years. The SF315 is used to request restoration and/or provisioning for an organization's critical circuits. The SF317 is for organizations to appeal the denial of TSP restoration and/or provisioning. The SF318 is for service vendors to provide circuit ID information associated with TSP codes they've been given by their customers. The SF319 is for service vendors to provide data to the program office in order to reconcile their TSP data with the TSP database. Participants request TSP priorities via email in order to reduce the use of the paper forms. The paper forms will also be available for download via the CISA website.

There have been no changes to the information being collected. The annual

government cost has increased due to increased wage rates/compensation factors and IT system security requirements. This is a renewal of an information collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

### Analysis

*Agency:* Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

*Title:* Telecommunications Service Priority System.

*OMB Number:* 1670-0005.

*Frequency:* Information is required when an organization decides they want TSP priority on their critical circuits. These requests are situational and made at the discretion of the telecommunications user therefore the program office is not able to determine when or how often such requests will occur.

*Affected Public:* State, Local, Tribal, and Territorial Governments and Private Sector.

*Number of Respondents:* 25,911.

*Estimated Time per Respondent:* 0.28 hours.

*Total Annualized Burden Hours:* 7,165 hours.

*Total Annualized Respondent Opportunity Cost:* \$372,408.

*Total Annualized Government Cost:* \$1,145,896.

**Robert J. Costello,**

*Chief Information Officer, Department of Homeland Security, Cybersecurity and Infrastructure Security Agency.*
