SUPPLEMENTARY INFORMATION:

I. *Background:* Job Corps is an intensive, residential training program for at-promise youth age 16 through 24 to address multiple barriers to employment faced by youth throughout the United States. Job Corps is authorized by Title I, Subtitle C, of the Workforce Investment Act (WIA) of 1998. The program is principally carried out through a nationwide network of 122 Job Corps centers. The centers are located at facilities either owned or leased by the Federal Government. The Department has a direct role in the operation of Job Corps, and does not serve as a pass-through agency for this program. It is the Department's responsibility to establish Job Corps centers and to select operators for them. Of the 122 current centers, 28 are operated by the Departments of Agriculture and the Interior, through interagency agreements. These centers are located on Federal lands controlled by these two agencies. The remaining 94 centers are managed and operated by large and small corporations and nonprofit organizations selected by the Department in accordance with the Federal Acquisition Regulations, and in most cases through a competitive procurement process. Many of the current contractors manage and operate more than one center.

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
