

University of Nebraska State Museum. No known individual was identified. No associated funerary objects are present.

Based on the condition of the human remains and copper staining on a hand phalanx, this individual has been determined to be Native American. A historic Omaha village site is located several miles to the south of the burial site. Based on the apparent age of the human remains and the location of the burial, this individual has been determined to be affiliated with the Omaha Tribe of Nebraska.

Officials of the University of Nebraska have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains described above represent the physical remains of 15 individuals of Native American ancestry. Officials of the University of Nebraska also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 18 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the University of Nebraska have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Omaha Tribe of Nebraska.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Priscilla Grew, NAGPRA Coordinator, University of Nebraska State Museum, 307 Morrill Hall, Lincoln, NE 68588–0338, telephone (402) 472–3779 before August 28, 2006. Repatriation of the human remains and associated funerary objects to the Omaha Tribe of Nebraska may proceed after that date if no additional claimants come forward.

The University of Nebraska is responsible for notifying the Omaha Tribe of Nebraska that this notice has been published.

Dated: July 13, 2006.
