

65 Enterprise, Suite 125, Aliso Viejo, CA 92656.

This financing is brought within the purview of § 107.730(a)(1) of the Regulations because LCM Healthcare Fund I, L.P. will provide equity financing to an Associate not on the same terms and conditions nor at the same time in Northwest Surgical Development Company, Inc. Therefore, this transaction is considered as *Other Financings with Associates* which requires SBA's prior written exemption. LCM Healthcare Fund I, L.P. has not made its proposed new investment in Northwest Surgical Development Company, Inc. and is seeking SBA prefinancing approval.

Notice is hereby given that any interested person may submit written comments on this transaction within fifteen days of the date of this publication to the Associate Administrator, Office of Investment and Innovation, U.S. Small Business Administration, 409 Third Street SW, Washington, DC 20416.

Thomas Morris,

Director, Patient Capital Investments, Office of Investment and Innovation, U.S. Small Business Administration.

BILLING CODE P

TENNESSEE VALLEY AUTHORITY

Sugar Camp Energy, LLC Mine No. 1 Significant Boundary Revision 8 Environmental Impact Statement

AGENCY: Tennessee Valley Authority.

ACTION: Record of decision.

SUMMARY: The Tennessee Valley Authority (TVA) has decided to adopt the preferred alternative identified in the Sugar Camp Energy, LLC Mine No. 1 Significant Boundary Revision (SBR) Number (No.) 8 Final Environmental Impact Statement (EIS; Document ID EISX-455-00-000-1729685514). A Notice of Availability of the Final EIS was published in the **Federal Register** on January 17, 2025. The purpose and need of the proposed action is to comply with the terms and conditions of the previously executed leases and agreements regarding the TVA-owned mineral rights in Illinois which total approximately 64,689 acres (hereafter, TVA Mineral Rights Area). TVA's preferred alternative, analyzed in the EIS as Alternative B, consists of implementing the terms of the existing coal lease agreement, approving the plan to expand its underground longwall mining operations by approximately 22,414 acres (hereafter, SBR No. 8 Mine Area), and pursuing divestment of the TVA Mineral Rights Area from TVA's control and custody. This Record of Decision (ROD) describes TVA's decision to implement the terms of the existing coal lease agreement and approve the plan to mine TVA-owned coal in the SBR No. 8 Mine Area. TVA will consider divestiture of the property in a separate ROD, likely later in 2025, through subsequent consideration and action by the TVA Board of Directors.

FOR FURTHER INFORMATION CONTACT:

Elizabeth Smith, Tennessee Valley Authority, 400 West Summit Hill Drive, WT11B, Knoxville, Tennessee 37902; telephone (865) 632-3053, or by email esmith14@tva.gov. The Final EIS, this ROD and other project documents are available on TVA's website at <https://www.tva.com/environment/environmental-stewardship/environmental-reviews>.

SUPPLEMENTARY INFORMATION: This notice is provided in accordance with TVA's procedures for implementing the National Environmental Policy Act (NEPA), as amended (42 U.S. Code [U.S.C.] 4321 *et seq.*), found at 18 Code of Federal Regulations (CFR) part 1318. TVA is a corporate agency and instrumentality of the United States, and among several mission responsibilities, generates and distributes electricity to 153 local power companies serving approximately 10 million people, as well as directly served commercial, industrial, and government customers in the TVA service territory—an 80,000-square-mile region comprised of Tennessee and

parts of Virginia, North Carolina, Georgia, Alabama, Mississippi, and Kentucky. TVA receives no direct Congressional appropriations, deriving virtually all its revenue from the sale of electricity. In addition to operating and investing revenues in its power system, TVA provides flood control, navigation, and land management for the Tennessee River watershed, and provides vital economic development, job creation and retention/support assistance within the TVA Power Service Area.

In 2002 and 2009, TVA leased Illinois Basin coal reserves to Sugar Camp, with the condition that any proposed mining plan be subject to environmental review and TVA approval. Any proposed mining plan is also subject to review and approval by the State of Illinois through an associated permit program, through delegated regulatory authority by the U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement under the Surface Mining Control and Reclamation Act of 1977. In 2008, Sugar Camp obtained Underground Coal Mine (UCM) Permit No. 382 from the Illinois Department of Natural Resources (IDNR), Office of Mines and Minerals (OMM), Land Reclamation Division, referenced hereafter as IDNR-OMM, for Sugar Camp Mine No. 1. UCM Permit No. 382 originally authorized underground longwall mining operations under approximately 12,125 acres in Franklin and Hamilton counties. UCM Permit No. 382 also included a surface effects area to process, store and transport the coal, where the existing coal preparation plant is located. Since then, Illinois has granted Sugar Camp permit revisions to expand underground longwall mining operations for Sugar Camp Mine No. 1, and TVA has prepared multiple environmental assessments and an EIS on the extraction of TVA-owned coal in these additional areas supporting TVA's prior decisions to approve the expanded mining operations under the leases; to date, TVA has approved the mining of 18,010 acres of TVA-owned coal at Sugar Camp Mine No. 1. In June 2023, Sugar Camp requested TVA approval of its SBR No. 8 mine plan to further expand its mining operations. In December 2024, Sugar Camp received SBR No. 8 of UCM Permit No. 382, from IDNR-OMM, which was conditionally issued on the basis of Sugar Camp submitting proof that the current suite of alleged and charged violations by the state of Illinois are in the process of being corrected.

On January 20, 2025, President Trump issued a number of executive orders that (1) directed the Council on Environmental Quality to “provide
