

Executive Order 12866 (58 FR 51735, October 4, 1993);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to the requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

SUPPLEMENTARY INFORMATION:

Background and Purpose

The United States ratified the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978

(STCW Convention), on June 10, 1991. On November 17, 2009, the Coast Guard published a NPRM on the Implementation of the 1995 Amendments to the STCW Convention. The Coast Guard held five public meetings and received a large number of comments to the rulemaking docket in response to the NPRM.

The International Maritime Organization (IMO) is currently developing amendments to the STCW Convention that are expected to be adopted at a diplomatic conference in June 2010. If adopted, these amendments will change the minimum training requirements for seafarers. They are expected to enter into force in accordance with Article XII of the Convention on January 1, 2012 for all countries that are party to the STCW Convention.

In response to feedback we have received and to the expected adoption of the 2010 amendments to the Convention under development at the IMO, the Coast Guard is reviewing the approach outlined in the NPRM. As such, we are considering publishing a Supplemental NPRM (SNPRM) as a next step. The SNPRM would describe any proposed changes from the NPRM, and seek comments from the public on those proposed changes.

This document is issued under authority of 5 U.S.C. 552(a).

Dated: March 17, 2010.

F.J. Sturm,

Deputy Director, Office of Commercial Regulations and Standards, U.S. Coast Guard.
