SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and government agencies with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is correct. The Occupational Safety and Health Act of 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents. (29 U.S.C. 657.)

Paragraph (e)(3) of the standard on Portable Fire Extinguishers (29 CFR 1910.157) specifies that employers must subject each portable fire extinguisher to an annual maintenance inspection and record the date of the inspection. In addition, this provision requires employers to retain the inspection record for one year after the last entry or for the life of the shell, whichever is less, and to make the record available to OSHA on request. This recordkeeping requirement assures employees and Agency compliance officers that portable fire extinguishers located in the workplace will operate normally in case of fire; in addition, this requirement provides evidence to OSHA compliance officers during an inspection that the employer performed the required maintenance checks on the portable fire extinguishers.

II. Proposed Actions

OSHA proposes to increase the existing burden hour estimate, and to extend OMB's approval, of the collection-of-information requirement specified by paragraph (e)(3) of its standard on Portable Fire Extinguishers (29 CFR 1910.157). In this regard, the Agency is increasing the burden hours associated with the collection of information requirement by 2,250 hours (from the current total of 63,750 burden hours to a new total of 66,000 burden hours). This adjustment resulted from an increase in the estimated number of employers (and, therefore, the number of portable fire extinguishers) covered by the requirement. An adjustment also occurred in the cost of servicing portable fire extinguishers under contract; accordingly, the contract-servicing cost increased from the current estimate of \$9,180,000 to a new estimate of \$19,008,000. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of the information collection requirement contained in the standard on Portable Fire Extinguishers.

Type of Review: Extension of currently approved information collection requirement.

Title: Portable Fire Extinguishers (29 CFR 1910.157).

OMB Number: 1218-0238.

Affected Public: Business or other for-profit; not-for-profit institutions; Federal government; state, local or tribal governments

Number of Respondents: 132,000.

Frequency: Annually.

Average Time per Response: 30 minutes (0.50 hour).

Estimated Total Burden Hours: 66,000.

Estimated Cost (Operation and Maintenance): \$19,008,000.

Occupational Safety and Health Administration

[Docket No. ICR-1218-0237(2000)]

Standard on Additional Requirements for Special Dipping and Coating Operations; Extension of the Office of Management and Budget's (OMB) Approval of an Information Collection (Paperwork) Request

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of an opportunity for public comment.

SUMMARY: OSHA solicits comments concerning the proposed extension of the information collection requirement contained in paragraph (g)(4) of the standard on Additional Requirements for Special Dipping and Coating Operations, 29 CFR 1910.126.

Request for Comment: The Agency seeks comments on the following issues:

- Whether the information collection requirement is necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of the Agency's estimate of the burden (time and costs) of the information collection requirement, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information transmission and collection techniques.

DATES: Submit written comments on or before January 30, 2001.

ADDRESSES: Submit written comments to the OSHA Docket Office, Docket No. ICR-1218-0237(2000), Occupational

(29 U.S.C. 657.)

Paragraph (g)(4) of the standard on Additional Requirements for Special Dipping and Coating Operations, 29 CFR 1910.126, requires employers to post a conspicuous sign near each piece of electrostatic-detesting equipment that notifies employees of the minimum safe distance they must maintain between goods undergoing electrostatic detesting and the electrodes or conductors of the equipment used in the process. Doing so reduces the likelihood of igniting the

explosive chemicals used in electrostatic-detesting operations.

II. Proposed Actions

OSHA proposes to retain its earlier estimate of zero burden hours for the information collection requirement specified by 29 CFR 1910.126(g)(4). Based on past discussions with organizations dealing with dip tanks, OSHA determined that employers affected by this provision previously collected the necessary information and provided the required signs for the 12 or fewer pieces of this equipment still in use.¹ Therefore, assuming that the signs are permanent fixtures that will remain indefinitely with each piece of equipment, the Agency concludes that this paperwork requirement currently imposes no burden hours or cost on the employers who operate this equipment. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of this information collection requirement.

Type of Review: Extension of currently approved information collection requirement.

¹ These discussions indicate that employers are replacing electrostatic-detesting equipment with newer technology; therefore, no need exists for additional signs.

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Biological Sciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Biological Sciences (1754).

Date/Time: January 10-12, 2001, 8 a.m.-5 p.m. daily.

Place: Room 340, NSF, 4201 Wilson Boulevard, Arlington, Virginia 22230.

Type of Meeting: Closed.

Contact Person: Ms. Carter Kimsey, Program Director, Postdoctoral Research Fellowship in Microbial Biology Program, Division of Biological Infrastructure, Room 615, NSF, 4210 Wilson Boulevard, Arlington, VA 22230, (703) 292-8470.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to the NSF for financial support.

Agenda: To review and evaluate Postdoctoral Research Fellowship in Microbial Biology Program proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government Sunshine Act.

Dated: November 27, 2000.
