EPA ICR Number: 2355.03

OMB Control Number: 2060–0652

Abstract: This ICR concerns the reporting of the true value of the audit sample to the compliance authority (state, local or EPA Regional Office) by the accredited audit sample provider (AASP) as required in the General Provisions of Parts 51, 60, 61 and 63. This ICR covers the period of 2014–2016.

The required audit program started on June 16, 2013. A regulated emission source conducting a compliance test would purchase an audit sample from an AASP. The AASP would report the true value of the audit sample to the compliance authority (state, local or EPA Regional Office). The AASP would, in most cases, make the report by electronic mail. A report would be made for each audit sample that the AASP sold to a regulated emission source that was conducting an emissions test to determine compliance with an emission limit.

Form Numbers: None.

Respondents/affected entities: Laboratories that supply audit samples.

Respondent's obligation to respond: Voluntary.

Estimated total number of potential respondents: 9

Frequency of response: There is no regular schedule for collecting information. The information is event driven and information is collected only when an AASP supplies an audit sample to a user.

Total estimated burden: 2,646 hours per year. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$201,116 per year. This includes the cost of preparing, validating, disturbing and reporting the audit results.

Changes in the Estimates: There are no changes in the hours in the total estimated respondent burden compared with the ICR currently approved by OMB.

John Moses,

Director, Collection Strategies Division.

Draft NPDES General Permit Modification for Discharges From the Oil and Gas Extraction Point Source Category to Coastal Waters in Texas and Onshore Stripper Well Category East of The 98th Meridian (TXG330000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; Proposal of NPDES general permit modification.

SUMMARY: EPA Region 6 today proposes modifications for the National Pollutant Discharge Elimination System (NPDES) general permit regulating discharges from oil and gas wells in the Coastal Subcategory in Texas and in the Stripper Subcategory which discharge into waters in Texas. These modifications would restore coverage eligibility for certain inland discharges that existed in the previous permit and require freshwater whole effluent toxicity species for discharges to freshwater receiving waters.

DATES: Comments must be received by January 16, 2014.

ADDRESSES: Comments should be sent to: Ms. Diane Smith (6WQ–NP), U.S. Environmental Protection Agency, Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733.

Comments may also be submitted via email to the following address: smith.diane@epa.gov

FOR FURTHER INFORMATION CONTACT: Ms. Diane Smith, Region 6, U.S. Environmental Protection Agency, 1445 Ross Avenue, Dallas, Texas 75202–2733. Telephone: (214) 665–2145.

A complete draft permit and a fact sheet more fully explaining the proposal may be obtained online from the Web site below or from Ms. Smith. In addition, the Agency's current administrative record on the proposal is available for examination at the Region's Dallas offices during normal working hours after providing Ms. Smith 24 hours advance notice. A copy of the proposed permit, fact sheet, and this **Federal Register** Notice may be found on the EPA Region 6 Web site at: <http://www.epa.gov/region6/water/npdes/genpermit/index.htm>.

SUPPLEMENTARY INFORMATION: This permit modification action proposes to clarify the coverage of discharges from stripper wells located east of the 98th meridian whose produced water comes from the Carrizo/Wilcox, Reklaw or Bartosh formations in Texas and whose produced water does not exceed 3000

mg/l total dissolved solids. The modification also adds WET testing requirements using freshwater species for produced waters which discharge to freshwater receiving waters. To determine whether your facility, company, business, organization, etc. is regulated by this action, you should carefully examine the applicability criteria in Part I, Section A.1 of this permit. If you have questions regarding the applicability of this action to a particular entity, consult the person listed in the preceding **FOR FURTHER INFORMATION CONTACT** section. (Note that previous permit was noticed in the **Federal Register** at 77 FR 47380 on August 8, 2012.)

Other Legal Requirements

A. State Certification

Under section 401(a)(1) of the CWA, EPA may not issue an NPDES permit until the State in which the discharge will occur grants or waives certification to ensure compliance with appropriate requirements of the CWA and State law. EPA will seek certification from the Railroad Commission of Texas prior to issuing a final permit.

B. Other Regulatory Requirements

When EPA issued the general permit in 2012, EPA had conducted evaluations required by Coastal Zone Management Act, National Environmental Policy Act, Endangered Species Act, Magnuson-Stevens Fishery Conservation and Management Act, Historic Preservation Act, Paperwork Reduction Act, and Regulatory Flexibility Act. The scope of Today's permit modification action does not trigger requirements for new evaluations for compliance with those regulatory requirements. These requirements were discussed in the fact sheet dated March 7, 2012, when EPA proposed the permit.

Dated: November 20, 2013.

William K. Honker,

Director, Water Quality Protection Division,
EPA Region 6.

I. Background

1. On November 6, 2003, the Bureaus announced an auction filing window for applications for new AM stations and major modifications to authorized AM stations. By Public Notice dated June 15, 2005, the Bureaus provided a list of all applications received during that filing window that were mutually exclusive with other applications submitted in the filing window from January 26 through January 30, 2004. In the *AM Auction 84 MX Public Notice*, applicants in several of the listed groups of mutually exclusive applications ("MX groups") were given the opportunity to eliminate their mutual exclusivity with other
