

natural spawner conservation objective, and the implication to the long-term productivity of the stock not meeting that objective, for three consecutive years.

When a salmon stock managed by the Council fails to meet its conservation objective for three consecutive years, an overfishing concern is triggered according to the terms of the Pacific Coast Salmon Plan (Salmon Plan). The Salmon Plan requires the Council to direct its Salmon Technical Team to work with relevant agency and tribal personnel to undertake a review of the status of the stock in question and determine if excessive harvest was responsible for the shortfall, if other factors were involved, and the significance of the stock depression with regard to achieving maximum sustainable yield.

Although non-emergency issues not contained in the meeting agenda may come before the STTKS for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

SUPPLEMENTARY INFORMATION: The Council is considering modifying the entry requirements for the rock shrimp limited access program. Vessels with the limited access endorsements are required to show documented landings of at least 15,000 pounds of rock shrimp from the South Atlantic Council's area of jurisdiction in one out of four calendar years to retain the endorsement. The initial four-year period began in 2004 and will end December 31, 2007. The Council is also considering a requirement for all commercial shrimp vessel permit holders in the South Atlantic to provide economic data if selected.

South Atlantic Fishery Management Council, Caribbean Fishery Management Council and Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of a scoping meeting.

SUMMARY: The South Atlantic, Caribbean, and Gulf of Mexico Fishery Management Councils (Councils) will hold a public scoping meeting regarding amending the spiny lobster fishery management plan to address the importation of spiny lobster products that do not meet U.S. conservation standards. The amendment will examine various alternatives to restrict imports of spiny lobster into the United States to a minimum acceptable length and/or weight. Spiny Lobsters are currently being imported below the U.S. minimum size limits. Much of the imported lobster does not meet the minimum size limits in the country of origin. This is adversely impacting recruitment throughout Florida and the Caribbean and, as a result, the status of spiny lobster in Caribbean and U.S. waters because of the distribution and dispersal of larvae.

DATES: The public scoping meeting will be held January 24, 2008, beginning at 6 p.m.

ADDRESSES: The meeting will be held at the Islander Hotel, 82100 Overseas Highway, Islamorada, FL 33036; telephone: (800) 753-6002 or (305) 664-2031. Written comments must be received in the South Atlantic Council's office by 5 p.m. on January 28, 2008.

SUPPLEMENTARY INFORMATION: Members of the Golden Crab Advisory Panel will

meet from 1 p.m.—5 p.m. on January 27, 2008, and from 8:30 a.m.—12 noon on January 28, 2008. The Golden Crab Advisory Panel will meet jointly with the Deepwater Shrimp Advisory Panel from 1:30 p.m.—3:30 p.m. on January 28, 2008. The Deepwater Shrimp Advisory Panel will meet from 4 p.m.—6 p.m. on January 28, 2008 and on January 29, 2008 from 8 a.m.—3 p.m.

Both the Rock Shrimp and Golden Crab Advisory Panels (APs) will receive the following presentations: (1) an overview of the Council's Fishery Ecosystem Plan (FEP) Comprehensive Amendment, (2) deepwater coral habitats in the South Atlantic Region, and (3) an update on recommendations from the recent joint meeting of the Council's Habitat and Coral Advisory Panels. Following the presentations, advisory panel members will discuss and provide recommendations on fishing operations relative to deepwater coral areas proposed as Habitat Areas of Particular Concern (HAPCs) included in the Council's Comprehensive Ecosystem Amendment 1. The Rock Shrimp AP and Golden Crab AP will meet jointly to discuss common fishing areas.

In addition, the Deepwater Shrimp AP will provide recommendations regarding Amendment 7 to the Shrimp Fishery Management Plan (FMP) addressing the current landings requirement for the rock shrimp fishery for the South Atlantic region. The requirement, created as part of a limited access program for the rock shrimp fishery through Amendment 5 to the Shrimp FMP for the South Atlantic Region, states that if a limited access rock shrimp endorsement is "not active" during a 48 month period (4 calendar years), it will not be renewed. A rock shrimp limited access endorsement is defined as inactive when the vessel it is attached to has less than 15,000 pounds of documented rock shrimp harvest from the exclusive economic zone (EEZ) within the South Atlantic Council's area of jurisdiction within one of four calendar years beginning in 2004.

Although non-emergency issues not contained in this agenda may come before these groups for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
