SUPPLEMENTARY INFORMATION:

A. Purpose

Federal Acquisition Regulation clause 52.223–2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts, is being revised to require prime contractors to report annually the product types and dollar value of U.S. Department of Agriculture (USDA)-designated biobased products purchased during the preceding fiscal year of a contract. The information reported by prime contractors will enable Federal agencies to report annually to the Office of Federal Procurement Policy concerning actions taken to implement and measure progress in carrying out the preference for biobased products required under section 9002 of the Farm Security and Rural Investment Act of 2002, codified at 7 U.S.C. 8102.

B. Discussion of Comment

A notice was published on the **Federal Register** at 76 FR 41179, on July 13, 2011. Only one comment was received in response to the **Federal Register** notice. The respondent stated that the current Federal Acquisition Regulation already requires contractors to make maximum use of (USDA)-designated biobased products, and, therefore, contractors should already be keeping certain records. The respondent concluded that the new information collection requirement, for contractors to report annually to the Government, should not be burdensome. This comment did not result in a change to the estimated burden.

C. Annual Reporting Burden
