

the States, or on the distribution of power and responsibilities among the various levels of government." Under section 6 of Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This action does not have federalism implications. It will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it affects only one State. This action simply provides EPA approval of Minnesota's voluntary proposal for its State underground storage tank program to operate in lieu of the Federal underground storage tank program in that State. Thus, the requirements of section 6 of the Executive Order do not apply.

National Technology Transfer and Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 ("NTTAA"), Public Law 104-113, 12(d) (15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This action does not involve technical standards. Therefore, EPA is not considering the use of any voluntary consensus standards.

Paperwork Reduction Act

Under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, Federal agencies

must consider the paperwork burden imposed by any information request contained in a proposed rule or a final rule. This rule will not impose any information requirements upon the regulated community.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[FRL-7023-4]

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Proposed notice of intent to delete the Kem-Pest Laboratories Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA), Region 7 is issuing a notice of intent to deletion of the Kem-Pest Laboratories Superfund Site, located in Cape Girardeau County, Missouri, from the National Priorities List (NPL) and is only requesting adverse public comment(s) on the direct final notice. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Pollution Contingency Plan. The EPA and the state of Missouri, through the Missouri Department of Natural Resources, has determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under Superfund. In the "Rules and Regulations" section of today's **Federal Register**, we are publishing a direct final notice of deletion of the Kem-Pest Laboratories Superfund Site without

prior notice of intent to delete because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final deletion. If we receive no adverse comments(s) on the direct final notice of deletion, we will not take further action on this notice of intent to delete. If we receive adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final deletion notice based on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of deletion which is located in the Rules section of this **Federal Register**.

DATES: Comments concerning this Site must be received by September 5, 2001.

ADDRESSES: Written comments should be addressed to Hattie Thomas, Community Involvement Coordinator, U.S. EPA, Region 7, Office of External Programs, 901 N. 5th Street, Kansas City, Kansas 66101, or at (913) 551-7003 or toll free at 1-800-223-0425.

FOR FURTHER INFORMATION CONTACT: Victor A. Lyke, Remedial Project Manager (RPM) at U.S. EPA, Region 7, Superfund Division, 901 N. 5th Street, Kansas City, Kansas, 66101 or (913) 551-7256 or toll free at 1-800-223-0425.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final Notice of Deletion which is located in the Rules section of this **Federal Register**.
