

Johnstown, Pennsylvania, address in item h. above.

Filing and Service of Responsive Documents—The application is ready for environmental analysis at this time, and the Commission is requesting comments, reply comments, recommendations, terms and conditions, and prescriptions.

The Commission directs, pursuant to Section 4.34(b) of the Regulations (see Order No. 533 issued May 8, 1991, 56 FR 23108, May 20, 1991) that all comments, recommendations, terms and conditions and prescriptions concerning the application be filed with the Commission within 60 days from the issuance date of this notice. All reply comments must be filed with the Commission within 105 days from the date of this notice.

Anyone may obtain an extension of time for these deadlines from the Commission only upon a showing of good cause or extraordinary circumstances in accordance with 18 CFR 385.2008.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. Any of these documents must be filed by providing the original and the number of copies required by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. An additional copy must be sent to Director, Office of Energy Projects, Division of Environmental and Engineering Review, Federal Energy Regulatory Commission, at the above address. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b), and 385.2010.

#### Electricity Market Design and Structure; Notice of Workshops

September 28, 2001.

A series of commissioner-led workshops will be held October 15 through October 19, 2001, beginning at 10 a.m., in the Commission meeting room at the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC.

The purpose of the workshops is to discuss core issues related to the development of efficient electric markets in an era where electric transmission systems will be operated by Regional Transmission Organizations. These issues include, but are not limited to, necessary market information, congestion management, cost recovery, market monitoring, transmission planning, business and reliability standards, the nature of transmission rights, and federal/state cooperation. The workshops will begin the process of developing a rulemaking on the market design and structure to be implemented through a pro forma tariff applicable to all public utilities and RTOs.

The workshops are open for the public to attend. There will be ample opportunity for public input in the rulemaking process, subsequent to the workshops. The Commission is inviting selected panelists on these topics to participate in these workshops; it is not at this time entertaining requests to make presentations. Additional details about the workshops will be provided in a subsequent notice, and will be posted on the Commission's web site under RTO Activities.

#### Conference on Energy Infrastructure; Notice of Conference

September 28, 2001.

The Federal Energy Regulatory Commission (FERC) will hold a conference on energy infrastructure

issues in the Western states on Friday, November 2, 2001 at the WestCoast Grand Hotel in Seattle Washington.

The conference will discuss the Western region's electric and gas infrastructure (electric generation and transmission, and fuel delivery, and storage), and related matters. The Governors of the western states have been invited to participate. The goal is to identify regional infrastructure issues and their implications for the future economic development of the region. We look forward to an informative discussion of the issues, and how we can facilitate and enhance a comprehensive collaborative approach to energy infrastructure development. It is our firm belief that until we have an adequate well-functioning energy infrastructure, we cannot expect workably competitive markets.

The one-day meeting will begin at 9:00 a.m. and will end about 4:00 p.m. This conference will follow a meeting of the western Committee on Regional Electric Power Cooperation (CREPC) at the same location.

All interested parties are invited to attend the conference on November 2.

We will issue further details on the conference, including the agenda and a list of participating discussants, as plans evolve. For additional information, please contact Saida Shaalan at 202-208-0278 or [Saida.Shaalan@ferc.fed.us](mailto:Saida.Shaalan@ferc.fed.us).
