VI. Selection Process

An amount of \$12,036,667.89 is available for Section 515 non-restricted funding. Pre-applications will be accepted for loan requests to finance the new construction of a Section 515 property, or the purchase and substantial rehabilitation of non-program RRH and related facilities in rural areas. Pre-applications will be assigned points and will be scored based upon certain criteria as described in the following paragraphs of this section. Pre-applications will then be ranked on a national basis and selected for further processing in rank order.

Pre-applications will receive points for the following:

A. *Energy Initiatives* Properties may receive a maximum of 42 points for energy initiatives. Properties will be classified into two categories for the purposes of scoring: New Construction and Purchase and Rehabilitation. Points can only be earned under one of these categories. Properties in either category also may receive points for Energy Generation and Green Property Management.

1. *Energy Conservation for New Construction* (maximum 32 points). New construction projects may be eligible for up to 32 points when the pre-application includes a written certification by the applicant to participate in the following energy efficiency programs. The points will be allocated as follows:

i. Participation in the Department of Energy's Energy Star for Homes program (10 points). http://www.energystar.gov/index.cfm?c=bldrs_lenders_raters.nh_multifamily_units.

ii. Participation in the Green Communities program by the Enterprise Community Partners. (10 points) <http://www.enterprisecommunity.org>.

iii. Participation in one of the following two programs will be awarded points for certification.

(4) Emerald Level (10 points).

iv. Participation in local green/energy efficient building standards; Applicants, who participate in a city, county or municipality program, will receive an additional 2 points. The applicant should be aware of and look for additional requirements that are sometimes embedded in the third-party program's rating and verification systems. (2 points)

2. *Energy Conservation for Purchase and Substantial Rehabilitation of an Existing Multifamily Property* (maximum 32 points). Pre-applications for the purchase and substantial rehabilitation of non-program MFH and related facilities in rural areas may be eligible to receive 32 points for the following initiatives.

Note: If you are participating in (i.) the Green Communities program, you may not receive additional points for items listed under (ii.). In other words, you may participate in (i.) and (iii.) or (ii.) and (iii.), but not all three:

i. Participation in the Green Communities program by the Enterprise Community Partners, <http://www.enterprisecommunity.org>, will be awarded 30 points for any project that qualifies for the program. (30 points) At least 30 percent of the points needed to qualify for the Green Communities program must be earned under the Energy Efficiency section of the Green Communities qualification program.

OR,

ii. Energy conservation points can be awarded for the following energy conservation measures only when the applicant is not enrolled in Green Communities and conservation measures are listed in the preliminary plans for substantial rehabilitation. (maximum 20 points).

(a) Replacement of heating, ventilation and air conditioning (HVAC) equipment with Energy Star qualified heating, ventilation and air conditioning (HVAC) equipment. (3 points).

(b) Replacement of windows and doors with Energy Star qualified windows and doors. (3 points).

(c) Additional insulation is added to the property to exceed the required R–Value of those building elements in that area of the country per the International Energy Conservation Code 2009. Two points will be awarded if all exterior walls exceed insulation code and 1 point will be awarded if attic insulation exceeds code for a maximum of 3 points. (3 points total).

(d) Reduction in building shell air leakage by at least 15% as determined

by pre- and post-rehab blower door testing on a sample of units. Building shell air leakage may be reduced through materials such as caulk, spray foam, gaskets, and house-wrap. Sealing of duct work with mastic, foil-backed tape, or aerosolized duct sealants can also help reduce air leakage. (3 points).

(e) 100 percent of installed appliances and exhaust fans are Energy Star qualified. (2 points).

(f) 100 percent of installed water heaters as Energy Star qualified. (2 points).

(g) 100 percent of toilets with flush capacity of more than 1.6 gallon flush capacity are replaced with new toilets with 1.6 gallon capacity or less, with EPA Water Sense label. (1 point).

(h) 100 percent of showerheads are replaced with new showerheads with EPA Water Sense label. (1 point).

(i) 100 percent of faucets are replaced with new faucets with EPA Water Sense label. (1 point).

(j) 100 percent Energy-efficient lighting including Energy Star qualified fixtures, compact fluorescent replacement bulbs in standard incandescent fixtures, and Energy Star Ceiling Fans. (1 point).

and,

iii. Participation in local green/energy efficient building standards. Applicants, who participate in a city, county or municipality program, will receive an additional 2 points. The applicant should be aware of and look for additional requirements that are sometimes embedded in the third-party program's rating and verification systems. (2 points).

3. *Energy Generation* (maximum 5 points). Pre-applications for new construction or purchase and substantial rehabilitation of non-program multi-family projects which participate in the Green Communities program by the Enterprise Community Partners or receive at least 8 points for Energy Conservation measures are eligible to earn additional points for installation of on-site renewable energy sources. Renewable, on-site energy generation will compliment a weathertight, well insulated building envelope with highly efficient mechanical systems. Possible renewable energy generation technologies include, but are not limited to: wind turbines and micro-turbines, micro-hydro power, photovoltaics (capable of producing a voltage when exposed to radiant energy, especially light), solar hot water systems and biomass/biofuel systems that do not use fossil fuels in production. Geo-exchange systems are highly encouraged as they lessen the total demand for

energy and, if supplemented with other renewable energy sources, can achieve zero energy consumption more easily. Points under this section will be awarded as follows. Projects with preliminary or rehabilitation building plans and energy analysis propose a 10 percent to 100 percent energy generation commitment (where generation is considered to be the total amount of energy needed to be generated on-site to make the building a net-zero consumer of energy) may be awarded points corresponding to their percent of commitment as follows:

(a) 0 to 9 percent commitment to energy generation receives 0 points;

(b) 10 to 29 percent commitment to energy generation receives 1 point;

(c) 30 to 49 percent commitment to energy generation receives 2 points;

(d) 50 to 69 percent commitment to energy generation receives 3 points;

(e) 70 to 89 percent commitment to energy generation receives 4 points;

(f) 90 percent or more commitment to energy generation receives 5 points. In order to receive more than 1 point for this energy generation section, an accurate energy analysis prepared by an engineer will need to be submitted with the pre-application. Energy analysis of preliminary building plans using industry-recognized simulation software must document the projected total energy consumption of the building, the portion of building consumption which will be satisfied through on-site generation, and the building's Home Energy Rating System (HERS) score.

4. *Property Management Credentials* (5 points). Projects may be awarded an additional 5 points if the designated property management company or individuals that will assume maintenance and operations responsibilities upon completion of construction work have a Credential for Green Property Management. Credentialing can be obtained from the National Apartment Association (NAA), National Affordable Housing Management Association, the Institute for Real Estate Management, U.S. Green Building Council's Leadership in Energy and Environmental Design for Operations and Maintenance (LEED OM), or another source with a certifiable credentialing program. Credentialing must be illustrated in the resume(s) of the property management team and included with the pre-application. (5 points).

B. *Leverage Assistance*

The presence and extent of leveraged assistance for the units that will serve USDA Rural Development income-eligible tenants at basic rents, as defined

in 7 CFR section 3560.11, comparable to those rents if USDA Rural Development provided full financing, computed as a percentage of the USDA Rural Development total development cost (TDC). Each of the environmental conservation programs mentioned under VI(A) may include grants and additional funding. This funding is also considered leveraged assistance and can receive points under this section. Also, funding sources for energy-efficiency in each State can be found at: <http://www.dsireusa.org/>. Loan proposals that include leveraged/secondary funds which have been requested, but have not yet been committed, will be processed as follows: The proposal will be scored based on the requested secondary funds, provided the applicant includes evidence of a filed application for the secondary funds; and the funding date of the requested secondary funds will permit processing of the loan request in the current funding cycle, or, if the applicant does not receive the requested funds, will permit processing of the next highest ranked proposal in the current year. Points will be awarded in accordance with the following table. Percentages will be rounded to the next higher whole number. (0 to 30 points).

Number of Points	Description % of Leveraging
30	150% or more
25	100–149%
20	50–99%
15	1–49%

C. *Colonia, Tribal land, or Rural Economic Area Partnership (REAP) Community*

The units to be developed are in a colonia, Tribal land, or Rural Economic Area Partnership (REAP) community, or in a place identified in the State Consolidated Plan or State Needs Assessment as a high need community for MFH. (20 points).

D. *Special Initiatives and MOU*

Pursuant to 7 CFR Section 3560.56 (c)(1)(iii), a National Office initiative will provide points to loan requests that meet the selection criteria as follows: In States where USDA Rural Development has an on-going formal working relationship, agreement, or Memorandum of Understanding (MOU) with the State to provide state financial resources (State funds, State RA, HOME funds, Community Development Block Grant (CDBG) funds, or Low-Income Housing Tax Credits (LIHTC)) for USDA Rural Development proposals; or where the State provides preference or points to USDA Rural Development proposals

in awarding such State resources, 20 points will be provided to loan requests that include such State resources in an amount equal to at least 5 percent of the TDC. Native American Housing and Self Determination Act (NAHASDA) funds may be considered a State resource if the Tribal plan for NAHASDA funds contains provisions for partnering with USDA Rural Development for MFH. The applicant can contact its USDA Rural Development State Office to determine whether a particular State falls into this initiative. (20 Points).

E. Donated Land

The loan request includes donated land meeting the provisions of 7 CFR section 3560.56(c)(1)(iv). (5 points).

F. Presidentially Declared Disaster Area

Pursuant to 7 CFR 3560.56(c)(1)(iii), points will be awarded if the property will be constructed or rehabilitated in a Presidentially declared disaster area. VII. Set Asides

Loan requests will be accepted for the following set-asides:

A. Non-profit set-aside. An amount of \$2,000,000 has been set aside for non-profit applicants as defined in 7 CFR 3560.11. All loan proposals must be in designated places in accordance with 7 CFR section 3560.57. A State or jurisdiction may fund one proposal from this set-aside, which cannot exceed \$1 million. A State could receive additional funds from this set-aside if any funds remain after the Agency funds one proposal from each participating State. The National Office will inform the State Offices if additional funds are available. If additional set-aside funds remain, each State's second highest scoring proposal will be funded. If there are insufficient funds to fund one loan request from each participating State, selection will be determined nationally by point score on each State's highest ranking proposal. This method will also be used if additional funds are available to fund more than 1 loan proposal per State where there are insufficient funds to fund a second or more proposal for each State. If there are any funds remaining, they will be handled in accordance with 42 U.S.C. 1485(w)(3). Funds from this set-aside will be available only to nonprofit entities, which may include a partnership that has as its general partner a nonprofit entity or the

nonprofit entity's for-profit subsidiary which will be receiving low-income housing tax credits authorized under section 42 of the Internal Revenue Code of 1986. To be eligible for this set-aside, the nonprofit entity must be an organization that:

1. Will own an interest in the project to be financed and will materially participate in the development and the operations of the project;
2. Is a private organization that has nonprofit, tax exempt status under section 501(c)(3) or section 501(c)(4) of the Internal Revenue Code of 1986;
3. Has among its purposes the planning, development, or management of low-income housing or community development projects; and
4. Is not affiliated with or controlled by a for-profit organization.

B. Underserved Counties and Colonias Set-aside. An amount of \$2,000,000 has been set aside for loan requests to develop units in the 100 most needy underserved counties or colonias as defined in section 509(f) of the Housing Act of 1949, as amended. A State or jurisdiction may fund one proposal from this set-aside, which cannot exceed \$1 million. A State could receive additional funds from this set-aside if any funds remain after the Agency funds one proposal from each participating State. The National Office will inform the State Offices if additional funds are available. If additional set-aside funds remain, each State's second highest scoring proposal will be funded. If there are insufficient funds to fund one loan request from each participating State, selection will be determined nationally by point score on each State's highest ranking proposal. This method will also be used if additional funds are available to fund more than 1 loan proposal per State where there are insufficient funds to fund a second or more proposal for each State. If there are any funds remaining, they will be handled in accordance with 42 U.S.C. 1485(w)(3).

C. REAP Zone Set-aside. An amount of \$2,000,000 has been set aside to develop units in a REAP zone. Loan requests that are eligible for this set-aside are also eligible for regular Section 515 funds. When requests for this set-aside exceed available funds, selection will be made in accordance with 7 CFR 3560.56(c) and ranking as described earlier in this NOFA. This set-aside is only available until June 30, 2011.

VIII. Rental Assistance (RA)

New construction RA will be available for FY 2011 in the amount of \$2,025,940. New construction RA may not be used in conjunction with a

transfer or subsequent loan for repairs or rehabilitation, preservation purposes or for inventory property sales.

IX. Appeal Process

Applicants that are rejected will be notified and given appeal rights under 7 CFR part 11. All adverse determinations regarding applicant's eligibility and the awarding of points as a part of the selection process are appealable. Instructions on the appeal process will be provided at the time an applicant is notified of the adverse action.

X. Equal Opportunity and Non-Discrimination Requirements

Borrowers and applicants will comply with the provisions of 7 CFR 3560.2. All housing must meet the accessibility requirements found at 7 CFR 3560.60(d). All applicants must submit or have on file a valid Form RD 400-1, "Equal Opportunity Agreement," and Form RD 400-4, "Assurance Agreement."

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

SUMMARY: On March 4, 2011, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain frozen warmwater shrimp (shrimp) from India. This review covers 201 producers/exporters¹ of the subject merchandise to the United States. The period of review (POR) is February 1, 2009, through January 31, 2010.

Based on our analysis of the comments received, we have made no changes to the margin calculations. Therefore, the final results do not differ from the preliminary results. The final weighted-average dumping margins for the reviewed firms are listed below in the section entitled “Final Results of Review.”

DATES: *Effective Date:* July 13, 2011.

FOR FURTHER INFORMATION CONTACT: Elizabeth Eastwood or Henry Almond, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230; telephone (202) 482–3874 or (202) 482–0049, respectively.

¹ This figure does not include Vaibhav Sea Foods (Vaibhav), a company for which the Department is rescinding the administrative review. This figure also treats collapsed entities as one producer/exporter. For further discussion concerning the rescission of the review with respect to Vaibhav, see the “Partial Rescission” section of this notice below.

SUPPLEMENTARY INFORMATION:

Background

This review covers 201 producers/exporters. The respondents which the Department selected for individual examination are Apex Exports (Apex) and Falcon Marine Exports Limited (Falcon). The respondents which were not selected for individual examination are listed in the “Final Results of Review” section of this notice.

On March 4, 2011, the Department published in the **Federal Register** the preliminary results of administrative review of the antidumping duty order on shrimp from India. *See Certain Frozen Warmwater Shrimp From India: Preliminary Results of Antidumping Duty Administrative Review, Partial Rescission of Review, and Preliminary No Shipment Determination*, 76 FR 12025 (Mar. 4, 2011) (*Preliminary Results*).

On March 21, 2011, in response to a request from the Department, Triveni Fisheries Pvt. Ltd. (Triveni), a respondent not selected for individual examination, clarified its previous submission to indicate that it had no shipments, entries or sales of subject merchandise during the POR. For further discussion, see the “Determination of No Shipments” section of this notice.

In April 2011, the Department verified the cost data reported by Apex in India.

We invited parties to comment on the *Preliminary Results* of review. In May 2011, we received case and rebuttal briefs from the Ad Hoc Shrimp Trade Action Committee (the petitioner), the American Shrimp Processors Association/the Louisiana Shrimp Association (collectively, “the processors”), and Apex and Falcon.

The Department has conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The scope of this order includes certain frozen warmwater shrimp and prawns, whether wild-caught (ocean harvested) or farm-raised (produced by aquaculture), head-on or head-off, shell-on or peeled, tail-on or tail-off,² deveined or not deveined, cooked or raw, or otherwise processed in frozen form.

The frozen warmwater shrimp and prawn products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products

² “Tails” in this context means the tail fan, which includes the telson and the uropods.

which are processed from warmwater shrimp and prawns through freezing and which are sold in any count size.

The products described above may be processed from any species of warmwater shrimp and prawns. Warmwater shrimp and prawns are generally classified in, but are not limited to, the *Penaeidae* family. Some examples of the farmed and wild-caught warmwater species include, but are not limited to, whiteleg shrimp (*Penaeus vannamei*), banana prawn (*Penaeus merguensis*), fleshy prawn (*Penaeus chinensis*), giant river prawn (*Macrobrachium rosenbergii*), giant tiger prawn (*Penaeus monodon*), redspotted shrimp (*Penaeus brasiliensis*), southern brown shrimp (*Penaeus subtilis*), southern pink shrimp (*Penaeus notialis*), southern rough shrimp (*Trachypenaeus curvirostris*), southern white shrimp (*Penaeus schmitti*), blue shrimp (*Penaeus stylirostris*), western white shrimp (*Penaeus occidentalis*), and Indian white prawn (*Penaeus indicus*).

Frozen shrimp and prawns that are packed with marinade, spices or sauce are included in the scope of this order. In addition, food preparations, which are not “prepared meals,” that contain more than 20 percent by weight of shrimp or prawn are also included in the scope of this order.

Excluded from the scope are: (1) Breaded shrimp and prawns (HTSUS subheading 1605.20.10.20); (2) shrimp and prawns generally classified in the *Pandalidae* family and commonly referred to as coldwater shrimp, in any state of processing; (3) fresh shrimp and prawns whether shell-on or peeled (HTSUS subheadings 0306.23.00.20 and 0306.23.00.40); (4) shrimp and prawns in prepared meals (HTSUS subheading 1605.20.05.10); (5) dried shrimp and prawns; (6) canned warmwater shrimp and prawns (HTSUS subheading 1605.20.10.40); (7) certain dusted shrimp; and (8) certain battered shrimp. Dusted shrimp is a shrimp-based product: (1) That is produced from fresh (or thawed-from-frozen) and peeled shrimp; (2) to which a “dusting” layer of rice or wheat flour of at least 95 percent purity has been applied; (3) with the entire surface of the shrimp flesh thoroughly and evenly coated with the flour; (4) with the non-shrimp content of the end product constituting between four and ten percent of the product’s total weight after being dusted, but prior to being frozen; and (5) that is subjected to IQF freezing immediately after application of the dusting layer. Battered shrimp is a shrimp-based product that, when dusted in accordance with the definition of
