The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2024-0030 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

**II. Discussion**

The NRC is issuing for public comment Draft Supplement 21, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the proposed subsequent renewal of Renewed Facility Operating License Nos. DPR-33, DPR-52, and DPR-68, for an additional 20 years of operation for Browns Ferry. Draft Supplement 21, Second Renewal, to the GEIS includes a preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action.

Based on the NRC staff's (i) review of the SLR application, which includes the environmental report, supplemental documents, and the licensee's responses to the NRC staff's requests for additional information; (ii) consultation with Federal, State, Tribal, and local governmental agencies and consideration of input from other stakeholders; and (iii) independent environmental review as documented in the draft environmental impact statement, the NRC staff's preliminary recommendation is that the adverse environmental impacts of SLR for Browns Ferry are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable.

**Constellation Energy Generation, LLC; Peach Bottom Atomic Power Station Units 2 and 3; Draft Supplement to Environmental Impact Statement**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Request for comment; opportunity to request a hearing and to petition for leave to intervene.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC, the Commission) is issuing for public comment Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 10, Second Renewal, Regarding Subsequent License Renewal (SLR) for Peach Bottom Atomic Power

Station Units 2 and 3 (Peach Bottom), Supplement 1, Draft Report for Comment. This draft supplement to the 2020 final supplemental environmental impact statement (2020 final SEIS) concerns the NRC staff's review of the environmental impacts of the proposed SLR of Renewed Facility Operating License Nos. DPR-44 and DPR-56 for Peach Bottom Units 2 and 3, respectively, for an additional 20 years. Peach Bottom is located primarily in Peach Bottom Township, York County, Pennsylvania, near Delta, Pennsylvania. Possible alternatives to the proposed action of SLR include the no-action alternative and reasonable replacement power alternatives. A new notice of opportunity to request a hearing and petition for leave to intervene—limited to contentions based on new information in the draft supplement—is also being issued.

**DATES:** Members of the public are invited to submit comments by July 14, 2025. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Requests for a hearing or petitions for leave to intervene must be filed by July 29, 2025.

- *Public Library:* A copy of Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 10, Second Renewal, Regarding Subsequent License Renewal for Peach Bottom Atomic Power Station Units 2 and 3, Supplement 1, Draft Report for Comment will be available for public review at the Harford County Public Library—Whiteford Branch, 2407 Whiteford Road, Whiteford, MD 21160.

*B. Submitting Comments*

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2024-0214 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

**II. Background**

By letter dated July 10, 2018, Exelon Generation Company, LLC (now Constellation Energy Generation, LLC (CEG)) submitted to the NRC an application, filed pursuant to section 103 of the Atomic Energy Act of 1954, as amended, and part 54 of title 10 of the *Code of Federal Regulations* (10 CFR), "Requirements for Renewal of Operating Licenses for Nuclear Power Plants," for subsequent renewed facility operating licenses with expiration dates of August 8, 2053, for Peach Bottom, Unit 2 and July 2, 2054, for Peach Bottom, Unit 3, which are 20 years beyond when the current renewed facility operating licenses expire. The SLR application included an environmental report.

A notice of receipt of the Peach Bottom SLR application was published in the **Federal Register** on August 1, 2018 (83 FR 37529). A notice of acceptance for docketing of the application and opportunity to request a hearing was published in the **Federal Register** on September 6, 2018 (83 FR 45285). A notice of intent to conduct a scoping process and prepare a supplemental environmental impact statement (SEIS) was published in the **Federal Register** on September 10, 2018 (83 FR 45692). A notice of issuance of the draft SEIS and request for comment was published in the **Federal Register**

on August 7, 2019 (84 FR 38676). A notice of issuance of the final SEIS (2020 final SEIS) was published in the **Federal Register** on January 31, 2020 (85 FR 5725). A notice of issuance of the subsequent renewed facility operating licenses was published in the **Federal Register** on March 11, 2020 (85 FR 14247). The issuance of the licenses was also supported by an NRC Record of Decision (ROD).

The 2020 final SEIS and the ROD documented the NRC staff's environmental review of the Peach Bottom SLR application, including its recommendation that the adverse environmental impacts of SLR for Peach Bottom are not so great that preserving the option of SLR for energy-planning decisionmakers would be unreasonable. As discussed in the 2020 final SEIS and the ROD, the NRC staff considered the reasonably foreseeable environmental impacts of SLR for Peach Bottom, as well as a range of reasonable alternatives to SLR. As part of its environmental review, the NRC staff relied upon Revision 1 of NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (2013 LR GEIS), to meet its obligations under the NRC's environmental protection regulations in 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," and the National Environmental Policy Act of 1969, as amended. Specifically, for issues classified as Category 1 (generic to all or a distinct subset of nuclear power plants) in the 2013 LR GEIS, the NRC staff did not identify new and significant information and, therefore, relied upon the conclusions of the 2013 LR GEIS for all those issues applicable to Peach Bottom. For issues classified as Category 2 (specific to individual nuclear power plants) in the 2013 LR GEIS, the NRC staff evaluated those issues applicable to Peach Bottom in the draft and final SEIS.

### III. Discussion

The NRC is issuing for public comment Generic Environmental Impact Statement for License Renewal of

Nuclear Plants, Supplement 10, Second Renewal, Regarding Subsequent License Renewal for Peach Bottom Atomic Power Station Units 2 and 3, Supplement 1, Draft Report for Comment (draft supplement). The draft supplement updates Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 10, Second Renewal, Regarding Subsequent License Renewal for Peach Bottom Atomic Power Station Units 2 and 3, Final Report, issued in January 2020 (2020 final SEIS). Specifically, the draft supplement includes the NRC staff's evaluation of new information available since the issuance of the 2020 final SEIS. This new information includes the NRC's publication of a final rule on August 6, 2024 (89 FR 64166), which revised the NRC's environmental protection regulation, 10 CFR part 51. This final rule updated the potential environmental impacts associated with the renewal of an operating license for a nuclear power plant for up to an additional 20 years, which could either be an initial license renewal or an SLR. The technical basis for the final rule is provided by Revision 2 of NUREG-1437, which was revised as part of the rulemaking as an update to the 2013 LR GEIS. The final rule also involved the issuance of Revision 2 of NUREG-1555, Supplement 1, "Standard Review Plans for Environmental Reviews for Nuclear Power Plants: Supplement 1: Operating License Renewal, Final Report," and Revision 2 of Regulatory Guide 4.2, Supplement 1, "Preparation of Environmental Reports for Nuclear Power Plant License Renewal Applications." The NRC staff also considered additional information provided by CEG. The NRC staff prepared the draft supplement in accordance with 10 CFR 51.92, "Supplement to the final environmental impact statement," and Commission Legal Issuance (CLI)-22-02, CLI-22-03, and CLI-22-04, all dated February 24, 2022, that addressed the NRC staff's environmental reviews in SLR proceedings for five nuclear power plants, including Peach Bottom. The Commission concluded that the 2013 LR

GEIS, on which the NRC staff had relied, in part, for its environmental reviews of the SLR applications for the affected nuclear power plants, did not consider SLR. Therefore, the Commission determined that these environmental reviews were inadequate. Accordingly, the Commission directed the NRC staff to leave the previously issued Peach Bottom subsequent renewed facility operating licenses (dated March 5, 2020) in place but to modify their expiration dates to reflect the end dates of the previous renewed facility operating licenses (*i.e.*, August 8, 2033, for Peach Bottom, Unit 2 and July 2, 2034, for Peach Bottom, Unit 3), which the staff did on March 25, 2022. The Commission affirmed this direction in CLI-22-07.

In the draft supplement and in the 2020 final SEIS, the NRC staff's preliminary recommendation is that the adverse environmental impacts of SLR for Peach Bottom are not so great that preserving the option of SLR for energy-planning decisionmakers would be unreasonable. The NRC staff based this preliminary recommendation on the analysis and findings in Revision 2 of NUREG-1437, the environmental report submitted by Exelon Generation Company, LLC (now CEG), as supplemented, the NRC staff's consultation with Federal, State, Tribal, and local agencies, the NRC staff's independent environmental review, which is documented in the draft supplement and in the 2020 final SEIS, and the NRC staff's consideration of public comments received during scoping and on the 2020 final SEIS. Together, the draft supplement and the previously issued 2020 final SEIS evaluate all of the environmental impacts of continued operation during the SLR term for Peach Bottom, Unit 2 from August 8, 2033, to August 8, 2053, and for Peach Bottom, Unit 3 from July 2, 2034, to July 2, 2054.

## V. Opportunity To Request a Hearing and Petition for Leave To Intervene

As directed in CLI–22–03, with the completion of the draft supplement, a new notice of opportunity to request a hearing and petition for leave to intervene—limited to contentions based on new information in the draft supplement—is being issued.

Within 60 days after the date of publication of this notice, any person (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult 10 CFR 2.309. If a petition is filed, the presiding officer will rule on the petition and, if appropriate, a notice of hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

A State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h) no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally

recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML20340A053>) and on the NRC’s public website at <https://www.nrc.gov/aboutnrc/regulatory/adjudicatory/hearing.html#participate>.

## VI. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR 2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056) and on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [Hearing.Docket@nrc.gov](mailto:Hearing.Docket@nrc.gov), or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant

(or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at <https://www.nrc.gov/site-help/e-submittals/getting-started.html>. After a digital ID certificate is obtained and a docket created, the participant must submit adjudicatory documents in Portable Document Format. Guidance on submissions is available on the NRC’s public website at <https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or

their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC's adjudicatory E-Filing system may seek assistance by contacting the NRC's Electronic Filing Help Desk through the "Contact Us" link located on the NRC's public website at <https://www.nrc.gov/site-help/esubmittals.html>, by email to [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a tollfree call at 1-866-672-7640.

The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)-(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC's electronic hearing docket, which is publicly available at <https://adams.nrc.gov/ehd>, unless excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click "cancel" when the link requests certificates and you will be automatically directed to the NRC's electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

Dated: May 22, 2025.

For the Nuclear Regulatory Commission.

### **Constellation Energy Generation, LLC; Dresden Nuclear Power Station, Units 2 and 3; Draft Supplemental Environmental Impact Statement**

**AGENCY:** Nuclear Regulatory Commission

**ACTION:** Notice; request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment Draft Supplement 17, Second Renewal, to the Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, NUREG-1437, regarding the proposed subsequent license renewal (SLR) of Renewed Facility Operating License Nos. DPR-19 and DPR-25, which authorize Constellation Energy Generation, LLC to operate Dresden Nuclear Power Station, Units 2 and 3 (Dresden). Dresden is located 23 miles (mi) southwest of Joliet, Illinois, and 60 mi southwest of Chicago, Illinois, along the Illinois, Des Plaines, and Kankakee Rivers. Possible alternatives to the proposed action of SLR include no action and reasonable replacement power alternatives.

**DATES:** Members of the public are invited to submit comments by July 14, 2025. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before that date.
