

The filings are accessible in the Commission's eLibrary system (<https://elibrary.ferc.gov/idmws/search/fercgensearch.asp>) by querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: March 10, 2023.

Debbie-Anne A. Reese,

Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER23-1277-000]

Aron Energy Prepay 23, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Aron Energy Prepay 23 LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is March 30, 2023.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Dated: March 10, 2023.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP22–138–000]

Northern Natural Gas Company; Notice of Availability of the Final Environmental Impact Statement for The Proposed Northern Lights 2023 Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the Northern Lights 2023 Expansion Project (Project), proposed by Northern Natural Gas Company (Northern) in the above-referenced docket. Northern requests authorization to abandon, construct, and operate certain interstate natural gas facilities in Freeborn, Washington, Scott, Sherburne, and Stearns Counties, Minnesota and Monroe County, Wisconsin. The proposed Project would allow Northern to provide up to 44,222 dekatherms per day (Dth/d) of natural gas in incremental winter peak day firm transportation service to its existing residential, commercial, and industrial customer market and 6,667 Dth/d of additional firm service that would allow enhanced reliability and flexibility in providing natural gas transportation capacity for electric generation.

The final EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with the mitigation measures recommended in the final EIS, would result in limited adverse environmental impacts. Most adverse environmental impacts would be temporary or short-term during construction, but some long-term and permanent environmental impacts would occur on some forested lands. With the exception of climate change impacts that are not characterized in this final EIS as significant or insignificant, staff concludes that impacts would be reduced to less than significant levels through implementation of Northern's proposed avoidance, minimization, and

mitigation measures, as well as staff's Project-specific recommendations.

The Project would involve six new pipeline segments (four pipeline extensions and two pipeline loops¹), totaling 9.8 miles of pipe. The pipelines would range in size from 4 to 36 inches-in-diameter. Northern also proposes construction of four new valve settings and modifications at six existing aboveground facilities. Additionally, Northern proposes to abandon and remove two existing valve settings.

The final EIS addresses the potential environmental effects of the abandonment, construction and operation of the following Project facilities:

- construction of a 2.79-mile extension of 36-inch-diameter Ventura North E-line, Freeborn County, Minnesota;
- construction of a 1.07-mile, 30-inch-diameter loop of 20-inch-diameter Elk River 1st and 2nd branch lines, Washington County, Minnesota;
- construction of a 1.14-mile extension of 24-inch-diameter Willmar D branch line, Scott County, Minnesota;
- construction of a 2.48-mile extension of 8-inch-diameter Princeton tie over loop, Sherburne County, Minnesota;
- construction of a 2.01-mile loop of 3-inch-diameter Paynesville branch line, Stearns County, Minnesota;
- construction of a 0.34-mile extension of 8-inch-diameter Tomah branch line loop, Monroe County, Wisconsin;
- construction or modification of aboveground facilities including: construction of one new pig launcher within an existing facility, construction of four new valve settings, replacement of valves and piping inside four existing facilities, and installation of two rupture-mitigation valves, associated piping, and building. Aboveground facilities would be in Freeborn, Washington, Scott, Sherburne, and Stearns County, Minnesota; and Monroe County, Wisconsin; and
- abandonment and removal of two valve settings and associated piping in Scott and Freeborn County, Minnesota.

The Commission mailed a copy of this *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; regional non-governmental organizations, environmental and public interest groups; potentially interested Indian tribes; affected landowners; and newspapers and libraries in the project

¹ Loop is parallel pipelines connected at both ends that allows more gas to flow through that segment.

area. The final EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the final EIS may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search", and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.* CP22–138). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

In accordance with the Council on Environmental Quality's (CEQ) regulations implementing NEPA, no agency decision on a proposed action may be made until 30 days after the U.S. Environmental Protection Agency publishes a notice of availability of the final EIS in the **Federal Register**. However, the CEQ regulations provide an exception to this rule when an agency decision is subject to a formal internal appeal process that allows other agencies or the public to make their views known. In such cases, the agency decision may be made at the same time the notice of the final EIS is published, allowing both periods to run concurrently. The Commission decision for this proposed action is subject to a 30-day rehearing period.

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: March 10, 2023.
