[Docket No. OR12-10-000]

Explorer Pipeline Company; Notice of Amendment to Petition for Declaratory Order

Take notice that on May 17, 2012, pursuant to Rule 215 of the Commission's Rules of Practice and Procedure, 18 CFR 385.215 (2011), Explorer Pipeline Company (Explorer) filed an amendment to its March 23, 2012 Petition to the Federal Energy Regulatory Commission for a declaratory order approving (1) priority capacity and (2) the overall rate structure for Explorer's proposed diluent pipeline extension project (Diluent Extension Project). In its Petition, Explorer described the Diluent Extension Project as involving the construction of a new pipeline segment from Peotone, Illinois to Manhattan, Illinois, where Explorer's pipeline system will interconnect with Enbridge's Southern Lights pipeline. In light of recent industry developments, Explorer states in its amendment that it seeks to make the priority capacity and overall rate structure it requests in its Petition available to shippers who commit to a different interconnection project. Accordingly, Explorer requests that the Commission grant the Petition, subject to this amendment.

Any person desiring to intervene or to protest in this proceeding must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an

eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. [Docket No. CP12-467-000]

CenterPoint Energy Gas Transmission Company, LLC; Notice of Request Under Blanket Authorization

Take notice that on May 22, 2012, CenterPoint Energy Gas Transmission Company, LLC (CenterPoint), 1111 Louisiana Street, Houston, Texas, pursuant to its blanket certificate issued in Docket Nos. CP82-384-000, et. al., filed an application in accordance to sections 157.210 and 157.217(b) of the Commission's Regulations under the Natural Gas Act (NGA) as amended, to replace compression facilities at the Ruston Storage Compressor Station located in Lincoln Parish, Louisiana, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call

toll-free, (866) 208-3676 or TTY, (202) 502-8659.

The Ruston Storage Compressor Station (Ruston) was constructed in 1969 and consists of one 4,000 horsepower (hp) Worthington MLV-14 reciprocating compressor unit which was originally installed over 40 years ago. CenterPoint has determined that Ruston needs additional operating flexibility to dedicate compression directly to storage injection and since CenterPoint can no longer purchase replacement parts for the existing compressor unit, CenterPoint proposed to replace the Worthington unit with a 4,735 hp CAT unit, comprised of a skid-mounted control enclosure, fuel gas metering skid, and appurtenant facilities. The proposed replacement will (1) increase Line F's available year-round, firm capacity east of Ruston, from 147.4 MMcf/day to 162.5 MMcf/day; (2) increase Ruston's injection deliverability from 33 MMcf/day to 34.5 MMcf/day; and (3) increase Line F's available peak day capacity east of Ruston, from 286.4 MMcf/day to 291.3 MMcf/day. The proposed replacement will not result in any changes to the certificated parameters of the Ruston Storage Field. The estimated cost of the proposed project is \$13.9 million, which will be financed by available funds and/or short-term borrowings.

Any questions concerning this application may be directed to B. Michelle Willis, Manager, Regulatory and Compliance, CenterPoint Energy Gas Transmission Company, P.O. Box 21734, Shreveport, Louisiana 71151, (318) 429-3708, or email at Michelle.Willis@CenterPointEnergy.com.

This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or call toll-free at (866) 206-3676, or, for TTY, contact (202) 502-8659. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages intervenors to file electronically.

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section
