

regulatory or tax risk and consistent with the Corp Fin Statement. The Sponsor's engagement in any staking activities on behalf of the Trust is contingent upon it receiving an opinion of counsel or guidance from the U.S. government on the U.S. federal income tax treatment of staking activities by the Trust.

Staking by the Sponsor on Behalf of the Trust

The Sponsor expects to maintain sufficient liquidity in the Trust to satisfy redemptions. Any ether staked, or cause to be staked by the Sponsor on behalf of the Trust will consist exclusively of ether owned by the Trust.

First, the Sponsor will only stake, or cause to be staked, the ether held by the Trust. The Sponsor will not seek to pool the ether held by the Trust with ether held by other entities. Second, the Sponsor will not advertise itself as providing any staking services generally, or promise any specific level of return from staking, or solicit delegated stakes from entities other than the Trust. Third, the Sponsor will stake, or cause to be staked, the Trust's ether solely in order to preserve the assets of the Trust by contributing to the security of the network and to capture economic value for the Trust's shareholders. Fourth, the Sponsor will not bear or subsidize the risk of slashing or forks on behalf of the Trust.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

The Exchange believes the proposed rule change is designed to remove impediments to and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest because it would allow the Trust to stake its ether on behalf of its investors. The Ethereum network allows for staking of its native asset, ether, and permits validators who successfully stake ether to receive block rewards. The net beneficiaries are not only validators, or those on behalf of whom they stake ether, but also the Ethereum blockchain itself, which grows and is progressively made more secure through the validation of transactions. Staking permits validators to contribute to network security and functionality. Validators are

compensated for fulfilling this important role through block rewards.

Allowing the Trust to stake its ether would benefit investors and help the Trust to better track the returns associated with holding ether. This would improve the creation and redemption process for both authorized participants and the Trust, increase efficiency, and ultimately benefit the end investors in the Trust.

Except for the changes described above, all other representations in Amendment No. 2, as amended, remain unchanged and will continue to constitute continued listing requirements for the Trust. In addition, the Trust will continue to comply with the terms of Amendment No. 2, as amended, and the requirements in Rule 5711(d).

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the proposed amendments are intended to benefit investors and allow the Trust to better track the returns associated with holding ether. The Exchange believes these changes will not impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission shall: (a) by order approve or disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NASDAQ-2025-053 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NASDAQ-2025-053. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NASDAQ-2025-053 and should be submitted on or before August 22, 2025.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁰

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-103576; File No. SR-NASDAQ-2025-055]

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Related to SQF Port Fees

July 29, 2025.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 22, 2025, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission

¹⁰ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

⁸ 15 U.S.C. 78f(b).

⁹ 15 U.S.C. 78f(b)(5).

(“Commission”) the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend The Nasdaq Options Market LLC’s (“NOM”) Pricing Schedule at Options 7, Section 3, Nasdaq Options Market—Ports and Other Services, to propose a limit to the number of Specialized Quote Feed (“SQF”) ³ Ports a Market Maker ⁴ may subscribe to in a month.

The text of the proposed rule change is available on the Exchange’s website at <https://listingcenter.nasdaq.com/rulebook/nasdaq/rulefilings> and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

³ “Specialized Quote Feed” or “SQF” is an interface that allows Market Makers to connect, send, and receive messages related to quotes and Immediate-or-Cancel Orders into and from the Exchange. Features include the following: (1) options symbol directory messages (e.g., underlying instruments); (2) system event messages (e.g., start of trading hours messages and start of opening); (3) trading action messages (e.g., halts and resumes); (4) execution messages; (5) quote messages; (6) Immediate-or-Cancel Order messages; (7) risk protection triggers and purge notifications; and (8) opening imbalance messages. The SQF Purge Interface only receives and notifies of purge requests from the Market Maker. Market Makers may only enter interest into SQF in their assigned options series. Immediate-or-Cancel Orders entered into SQF are not subject to the Order Price Protection, Market Order Spread Protection, or Size Limitation in Options 3, Section 15(a)(1) and (a)(2), and (b)(2), respectively. See NOM Options 3, Section 7(e)(1)(B).

⁴ The term “Nasdaq Options Market Maker” or “Options Market Maker” or “Market Maker” mean an Options Participant registered with the Exchange for the purpose of making markets in options contracts traded on the Exchange and that is vested with the rights and responsibilities specified in Options 2 of these Rules. See NOM Options 1, Section 1(a)(27).

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Pricing Schedule at Options 7, Section 3, Nasdaq Options Market—Ports and Other Services, to propose a limit on the number of SQF Ports a Market Maker may subscribe to in a month.

Currently, a NOM Options Market Maker is assessed an incremental SQF Port Fee of \$1,620 per port, per month for the first five ports (1–5), \$1,080 per port per month for the next 15 ports (6–20), and \$540 per port per month for all port over 20 ports (21 and above). Currently, the Exchange has no limits in place on the number of SQF Ports a Market Maker may acquire in a month.

At this time, the Exchange proposes to limit a Market Maker to no more than 250 SQF Ports per month.⁵ A Market Maker requires only one SQF Port to submit quotes in its assigned options series into NOM. While a Market Maker may elect to obtain multiple SQF Ports to organize its business,⁶ only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.⁷ The Exchange utilizes ports as a secure method for Participants to submit quotes into the Exchange’s match engine and for the Exchange to send messages related to those quotes to Participants. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is

⁵ The Exchange issued Options Technical Alert #2025–12 to announce the limitation.

⁶ For example, a NOM Options Market Maker may desire to utilize multiple SQF Ports for accounting purposes, to measure performance, for regulatory reasons or other determinations that are specific to that Participant.

⁷ NOM Options Market Makers have various regulatory requirements as provided for in Options 2, Section 4. Additionally, NOM Options Market Makers have certain quoting requirements with respect to their assigned options series as provided in Options 2, Section 5. SQF Ports or QUO Ports may be utilized to quote on NOM and only Market Makers may utilize these ports. The Exchange is not limiting the number of QUO Ports at this time. “Quote Using Orders” or “QUO” is an interface that allows Market Makers to connect, send, and receive messages related to single-sided orders to and from the Exchange. Order Features include the following: (1) options symbol directory messages (e.g., underlying); (2) system event messages (e.g., start of trading hours messages and start of opening); (3) trading action messages (e.g., halts and resumes); (4) execution messages; (5) order messages; and (6) risk protection triggers and cancel notifications. Orders submitted by Market Makers over this interface are treated as quotes. Market Makers may only enter interest into QUO in their assigned options series. Orders entered into QUO are not subject to the Order Price Protection or Size Limitation in Options 3, Section 15(a)(1) and (b)(2), respectively. See Options 3, Section 7(e)(1)(D).

monitored and maintained with various controls. The Exchange believes that the proposed limit of 250 SQF Ports per month will permit the Exchange to obtain greater efficiencies by placing this overall limit on SQF Ports. The Exchange believes a limit of 250 SQF Ports provides it with the appropriate bandwidth to support future growth and new Market Makers entrants.⁸

The Exchange proposes to implement the 250 SQF Ports per month limit on August 1, 2025.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁹ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁰ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest.

The Exchange’s proposal to limit a Market Maker to no more than 250 SQF Ports per month is consistent with the Act because it will allow the Exchange to obtain greater efficiencies in its overall connectivity management. The Exchange utilizes ports as a secure method for Participants to submit quotes into the Exchange’s match engine and for the Exchange to send messages related to those quotes to Participants. Only NOM Participants who are approved as Market Makers may utilize an SQF Port. Once approved, NOM Options Market Makers may subscribe to SQF Ports to submit quotes into the Exchange. While a Market Maker may elect to obtain multiple SQF Ports to organize its business,¹¹ only one SQF Port is necessary for a Market Maker to fulfill its regulatory quoting obligations.¹² Today, most Market Makers are in possession of several SQF Ports, and amend the number of SQF Ports from time to time. In fact, not all SQF Ports are actively used by Market Makers. In order to properly regulate its Participants and secure the trading environment, the Exchange has taken measures to ensure access is monitored and maintained with various controls that will protect investors and the public interest. Specifically, the Exchange ensures that information security safeguards, upgrades, and general port management are in effect

⁸ The Exchange will periodically review the SQF Port limit. If the Exchange elects to amend the limit it will file a rule proposal with the Commission.

⁹ 15 U.S.C. 78f(b).

¹⁰ 15 U.S.C. 78f(b)(5).

¹¹ See *supra* note 6.

¹² See *supra* note 7.

for all SQF Ports regardless of whether the SQF Port is actively in use. As a result of these efforts, the Exchange incurs costs to manage and maintain its SQF Ports and the secure environment surrounding its platform.

The Exchange's proposal is intended to permit it to govern its connectivity management in a reasonable manner while protecting investors and the general public by obtaining greater efficiencies with the limit on SQF Ports. The Exchange believes that its proposal is consistent with the Act in that it will provide the Exchange the ability to maintain the appropriate bandwidth to support future growth and new Market Makers entrants thereby removing impediments to and perfect the mechanism of a free and open market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

In terms of intra-market competition, the Exchange does not believe that its proposal will place any category of market participant at a competitive disadvantage because all Market Makers will uniformly be permitted to subscribe to no more than 250 SQF Ports per month. Today, no Market Maker has exceeded 250 SQF Ports.

The Exchange does not believe that its proposal will place an undue burden on intra-market competition because any exchange may elect to adopt a similar limit.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹³ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁴

A proposed rule change filed under Rule 19b-4(f)(6)¹⁵ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁶ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately upon filing. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the Exchange may implement the proposal on August 1, 2025. The Exchange notes that NOM does not prorate SQF Port Fees and, therefore, the Exchange requests that the Commission waive the operative delay so that the 250 SQF Port Fee limit may be in place at the beginning of the month so that the Exchange can manage billing for its Participants.

The Commission believes that waiver of the operative delay is consistent with the protection of investors and the public interest. The Exchange issued an Options Technical Alert to announce the limitation. The Exchange states that the proposed rule change is intended to permit it to govern its connectivity management in a reasonable manner while protecting investors and the general public by obtaining greater efficiencies with the limit on SQF Ports and will provide the Exchange the ability to maintain the appropriate bandwidth to support future growth and new Market Makers entrants. In addition, the Exchange notes that it does not prorate SQF Port Fees and a waiver of the operative delay will allow the 250 SQF Port Fee limit to be in place at the beginning of the month so that the Exchange can manage billing for its Participants. Accordingly, the Commission hereby waives the 30-day operative delay and designates the proposed rule change operative upon filing.¹⁷

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if

the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

¹⁵ 17 CFR 240.19b-4(f)(6).

¹⁶ 17 CFR 240.19b-4(f)(6)(iii).

¹⁷ For purposes only of waiver the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NASDAQ-2025-055 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NASDAQ-2025-055. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NASDAQ-2025-055 and should be submitted on or before August 22, 2025.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁸
