

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by removing airworthiness directive (AD) 2007–23–01, Amendment 39–15247 (72 FR 62568, November 6, 2007), and adding the following new AD:

Goodrich (Formerly BF Goodrich): Docket No. FAA–2011–0223; Directorate Identifier 2010–NM–161–AD.

Comments Due Date

(a) The FAA must receive comments on this AD action by May 5, 2011.

Affected ADs

(b) This AD supersedes AD 2007–23–01, Amendment 39–15247.

Applicability

(c) This AD applies to Goodrich evacuation systems approved under Technical Standard Order (TSO) TSO–C69b, as installed on the Airbus airplanes, certificated in any category, identified in paragraphs (c)(1), (c)(2), and (c)(3) of this AD.

(1) Model A330–201, –202, –203, –223, –223F, –243, –243F, –301, –321, –322, –323, –341, –342, and –343 airplanes; as identified in Goodrich Service Bulletin 7A1508/09/10/39–25–373, Revision 2, dated May 8, 2009.

(2) Model A340–211, –212, –213, –311, –312, and –313 airplanes; as identified in Goodrich Service Bulletin 7A1508/09/10/39–25–373, Revision 2, dated May 8, 2009.

(3) Model A340–541 and –642 airplanes, as identified in Goodrich Service Bulletins 7A1508/09/10/39–25–373, Revision 2, dated May 8, 2009; and 4A3928/4A3934–25–374, Revision 1, dated May 8, 2009.

Subject

(d) Joint Aircraft System Component (JASC)/Air Transport Association (ATA) of America Code 2560, Emergency Equipment.

Unsafe Condition

(e) This AD was prompted by reports that during workshop testing, certain pressure relief valves did not seal and allowed the pressure in certain slides/rafts to fall below the minimum raft mode pressure for the unit. We are issuing this AD to prevent loss of pressure in the escape slides/rafts after an emergency evacuation, which could result in inadequate buoyancy to support the raft's passenger capacity during ditching and increase the chance for injury to raft passengers.

Compliance

(f) Comply with this AD within the compliance times specified, unless already done.

Part Replacement

(g) Within 36 months after the effective date of this AD, inspect the evacuation systems to determine whether any pressure

relief valve having part number (P/N) 4A3641–1, 4A3791–3, 4A3641–26, or 4A3791–6 is installed. A review of airplane maintenance records or the system identification placard on the girt is acceptable in lieu of this inspection if the part number of the pressure relief valves can be conclusively determined from that review.

(h) If any valve having part number (P/N) 4A3641–1, 4A3791–3, 4A3641–26, or 4A3791–6 is identified during the inspection or review specified in paragraph (g) of this AD: Before further flight, do the applicable actions required by paragraphs (h)(1) and (h)(2) of this AD.

(1) Replace all pressure relief valves P/Ns 4A3641–1 and 4A3791–3 with pressure relief valves having P/N 115815–1, and mark the system identification placard on the girt, in accordance with the Accomplishment Instructions of Goodrich Service Bulletin 7A1508/09/10/39–25–373, Revision 2, dated May 8, 2009.

(2) Replace all pressure relief valves having P/Ns 4A3641–26 and 4A3791–6 with pressure relief valves having P/N 115815–1 (for evacuation systems having P/N 4A3934 series units) or 115815–2 (for evacuation systems P/N 4A3928 series units); and mark the system identification placard on the girt; in accordance with the Accomplishment Instructions of Goodrich Service Bulletin 4A3928/4A3934–25–374, Revision 1, dated May 8, 2009.

Parts Installation

(i) As of the effective date of this AD, no person may install a pressure relief valve having part number 4A3641–1, 4A3791–3, 4A3791–6, or 4A3641–26 in the evacuation system on any airplane.

Credit for Actions Accomplished in Accordance With Previous Service Information

(j) Actions accomplished before the effective date of this AD in accordance with Goodrich Service Bulletin 7A1508/09/10/39–25–373, dated March 31, 2008, or Goodrich Service Bulletin 7A1508/09/10/39–25–373, Revision 1, dated August 1, 2008; or Goodrich Service Bulletin 4A3928/4A3934–25–374, dated July 18, 2008; as applicable; are acceptable for compliance with the corresponding requirements of this AD.

An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue, SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRM’s should contact the FAA’s Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class D airspace, Class E airspace designated as an extension to a Class D surface area, and Class E airspace extending upward from 700 feet above the surface, at Palmdale Regional Airport/USAF Plant 42, Palmdale, CA. Controlled airspace is necessary to accommodate aircraft using the ILS LOC standard instrument approach procedures at the airport. This action would enhance the safety and management of aircraft operations at Palmdale Regional Airport/USAF Plant 42, Palmdale, CA. This would also correct the airport name from Palmdale Production Flight/Test Installation Air Force Plant Number 42 Airport, to Palmdale Regional Airport/USAF Plant 42.

Class D and Class E airspace designations are published in paragraph 5000, 6004 and 6005, respectively, of FAA Order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class D airspace and the Class E airspace designations listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3)

does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes additional controlled airspace at Palmdale Regional Airport/USAF Plant 42, Palmdale, CA.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Proposed Modification to Regulation Concerning the Revocation of Antidumping and Countervailing Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Proposed Modification to Regulation; Request for Comments.

SUMMARY: The Department of Commerce ("the Department") proposes to modify our regulations which govern the revocation of antidumping and countervailing duty orders, in whole or in part, and the termination of suspended antidumping and countervailing duty investigations. The modification, if adopted, would eliminate the provision for revocation of an antidumping or countervailing duty order with respect to individual exporters or producers based on those individual exporters or producers having received antidumping margins of zero for three consecutive years, or countervailing duty rates of zero for five consecutive years.

DATES: To be assured of consideration, comments must be received no later than April 20, 2011.

Submission of Comments: As specified above, to be assured of consideration, comments must be received no later than April 20, 2011. All comments must be submitted through the Federal eRulemaking Portal at <http://www.regulations.gov>, Docket No. ITA-2011-0001, unless the commenter does not have access to the Internet. Commenters that do not have

access to the Internet may submit the original and two copies of each set of comments by mail or hand delivery/courier. All comments should be addressed to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, Room 1870, Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230. The comments should also be identified by Regulation Identifier Number (RIN) 0625-AA86.

The Department will consider all comments received before the close of the comment period. SUPPLEMENTARY INFORMATION:

Background

The Department proposes to modify its regulations that provide for revocation of antidumping and countervailing duty orders pursuant to the Tariff Act of 1930, as amended (the Act). Currently, 19 CFR 351.222 provides requirements and procedures for the Department to determine in the context of an administrative review, based on an absence of dumping or countervailable subsidization, whether to (1) revoke an order in whole, or (2) partially revoke an order with respect to an individual exporter or producer. The Department proposes to eliminate the latter category of revocations as it pertains to revocations from an antidumping or countervailing duty order based on individual exporters or producers having received antidumping margins of zero for three consecutive years, or countervailing duty rates of zero for five consecutive years. The Department will retain, with some
