

within the Baldwin Park Operable Unit (BPOU) of the San Gabriel Valley Superfund Site. The Purchaser intends to use the plant for the design and manufacture of space-based sensors and smart weapons.

A notice of the proposed PPA and opportunity for public comment was published August 10, 2001 at 66 FR 42227. Based on a review of the public comments and EPA's independent analysis of the facts and circumstances concerning this matter, EPA has modified the proposed PPA.

The primary modification is that EPA has significantly increased the amount of consideration required in exchange for the liability release granted to the Purchaser. Specifically, the PPA now requires Aerojet to provide an additional \$40 million in cash for deposit into a third-party escrow account.

The settlement now provides the following benefits to EPA: the Purchaser will pay EPA \$325,000 in cash, to be held in reserve in a special account for future cleanup work at the BPOU; Aerojet, a potentially responsible party at the BPOU, will pay EPA \$9 million as partial reimbursement of its past costs to be held in the same special account for the same purposes; Aerojet will pay \$40 million into a third-party escrow account that may, with EPA approval, be used to fund construction of the groundwater remedy at the BPOU; and Aerojet's parent company, GenCorp Inc., will provide a written guaranty of \$25 million to assure Aerojet's performance of future cleanup activities.

**DATES:** This Prospective Purchaser Agreement, as modified, is effective September 25, 2001.
