POSTAL SERVICE

39 CFR Part 111

Stamped Mail

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is amending *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) in various sections to revise the previously adopted provision for stamped mail weighing more than 13 ounces and extend that provision to physical characteristics.

DATES: Effective: October 1, 2019.

FOR FURTHER INFORMATION CONTACT:

L'Tisha Slagle at (202) 268–6271, or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: The Postal Service published a final rule on October 9, 2009, (74 FR 52147–52148) announcing restrictions on the mailing of pieces weighing over 13 ounces bearing only postage stamps as the postage payment method.

To enhance the safety and security of Postal Service employees and customers, the Postal Service is now updating the Aviation Security Program, also known as the Anonymous Mail Program, to restrict the method of deposit for all mailpieces bearing stamps as the only postage payment method that weigh more than 10 ounces or that measure more than one half inch in thickness. Under the revised standards set forth below, domestic and

international mailpieces that weigh more than 10 ounces or measure more than one half inch in thickness and bear only postage stamps as the postage payment method, may not be deposited into collection receptacles, including street, lobby, and apartment boxes, or other unattended locations. These stamped mailpieces also may not be picked up by a city, rural, or highway contract letter carrier for delivery, or through Pickup on Demand® service. Instead, mailpieces that bear only stamps as the postage payment method and that weigh more than 10 ounces or measure more than one half inch in thickness, must be presented by the sender at a Post Office® location.

For most consumers and businesses, there should be little impact. These restrictions do not apply to any mailpiece that weighs 10 ounces or less and measures one half inch or less in thickness, nor do they affect any mailpieces, regardless of weight or thickness, for which postage is paid with a method other than stamps, such as a postage evidencing system (meter or PC Postage®) or a permit imprint. Customers also will retain the opportunity to obtain a full range of mailing services at their local post offices. In view of these factors, and because of the need to act expeditiously to protect the safety and security of the public, customers, postal employees, and the mail, the Postal Service has determined that the notice and public comment procedure on this change would be impracticable and inconsistent with the public interest, and that this change should take effect as quickly as possible.

In addition, the Postal Service will update *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®), *Hazardous, Restricted, and Perishable Mail*, Publication 52, and applicable *Quick Service Guides* (QSGs) under separate cover.

For the above reasons, the Postal Service adopts the following changes to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1. We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.

Accordingly, 39 CFR part 111 is amended as follows:

List of Subjects in 39 CFR Part 111

Administrative practice and procedure, Postal Service.

PART 111—[AMENDED]

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R04–OAR–2018–0800; FRL–10000–47–Region 4]

Air Plan Approval; KY; Jefferson County Existing and New VOC Storage Vessels Rule Changes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing approval of revisions to the Jefferson County portion of the Kentucky State Implementation Plan (SIP), submitted by the Commonwealth of Kentucky, through the Energy and Environment Cabinet (Cabinet), through a letter dated March 15, 2018. The revisions were submitted by the Cabinet on behalf of the Louisville Metro Air Pollution Control District (District, also referred to herein as Jefferson County) and make minor ministerial amendments to applicability dates and standards for both existing and new storage vessels for volatile organic compounds (VOC). EPA is finalizing approval of the changes because they are consistent with the Clean Air Act (CAA or Act).

DATES: This rule is effective October 31, 2019.
