

Section 305(d) authorizes NMFS to take action to carry out provisions in FMPs and of the MSA. In a previous action taken pursuant to section 304(b), NMFS approved the Council designed provisions in the FMP to authorize NMFS to annually adjust and distribute sector carryover consistent with MSA requirements to prevent overfishing and achieve optimum yield. See § 648.87(b)(1)(i)(C). The NMFS Assistant Administrator has determined that this final rule is consistent with the Northeast Multispecies FMP, other provisions of the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws.

This final rule is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(3)(B), NMFS finds good cause to waive prior public notice and opportunity for public comment on the allocation adjustments because allowing time for notice and comment is impracticable, unnecessary, and contrary to the public interest.

Notice and comment would be impracticable, unnecessary, and contrary to the public interest, as the distribution of unused quota carried over from the previous fishing year is an annual adjustment action that is expected by industry. These adjustments increase available catch, and sector vessels will be able to fish for this additional catch as soon as this action is in effect, which will provide increased operational flexibility and ability to catch its available allocation. They are routine, formulaic, and authorized by regulation. The public had prior notice and opportunity to participate in the development of and comment on the regulations implementing this process and expects this adjustment each year. Delaying these adjustments would result in a delay in the distribution of unused carryover to sectors, and could negate or reduce the intended economic benefits and increased operational flexibility provided by these adjustments. Carryover from 2022 was only recently finalized because it is based on data that was not available until the fall upon the conclusion of the catch accounting process for fishing year 2022.

Also, because advanced notice and the opportunity for public comment are not required for this action under the Administrative Procedure Act, or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, do not apply to this rule. Therefore, no final regulatory flexibility analysis is required and none has been prepared.

This final rule contains no information collection requirements

under the Paperwork Reduction Act of 1995.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 30, 2023.

Samuel D. Rauch, III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 230224–0053; RTID 0648–XD343]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher/Processors Using Hook-and-Line Gear in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using hook-and-line (HAL) gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2023 Pacific cod total allowable catch (TAC) apportioned to catcher/processors using HAL gear in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), December 1, 2023, through 2400 hours, A.l.t., December 31, 2023.

FOR FURTHER INFORMATION CONTACT: Abby Jahn, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subparts H of 50 CFR parts 600 and 679.

The 2023 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Central Regulatory Area of the GOA is 562 metric tons (mt) as established by the final 2023 and 2024

harvest specifications for groundfish in the GOA (88 FR 13238, March 2, 2023).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the 2023 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Central Regulatory Area of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 552 mt and is setting aside the remaining 10 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using HAL gear in the Central Regulatory Area of the GOA.

While this closure is effective, the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion, and would delay the closure of Pacific cod by catcher/processors using HAL gear in the Central Regulatory Area of the GOA. NMFS was unable to publish a notification providing time for public comment because the most recent, relevant data only became available as of November 29, 2023.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 30, 2023.

Michael P. Ruccio,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
