

noteworthy that, in subsection 811(h), Congress authorized the issuance of temporary scheduling actions by order rather than by rule. In the alternative, even if this action were subject to 5 U.S.C. 553, the Acting Administrator finds that there is good cause to forgo the notice and comment and the delayed effective date requirements of such section, as any further delays in the process for extending the temporary scheduling order would be impracticable and contrary to the public interest in view of the manifest urgency to avoid an imminent hazard to the public safety that these substances would present if scheduling expired, for the reasons expressed in the temporary scheduling order (84 FR 15505, April 16, 2019). Further, DEA believes that this order extending the temporary scheduling action is not a “rule” as defined by 5 U.S.C. 601(2), and, accordingly, is not subject to the requirements of the Regulatory Flexibility Act. The requirements for the preparation of an initial regulatory flexibility analysis in 5 U.S.C. 603(a) are not applicable where, as here, DEA is not required by 5 U.S.C. 553 or any other law to publish a general notice of proposed rulemaking.

Additionally, this action is not a significant regulatory action as defined by Executive Order (E.O.) 12866 (Regulatory Planning and Review) section 3(f), and the principles reaffirmed in E.O. 13563 (Improving Regulation and Regulatory Review), and, accordingly, this action has not been reviewed by the Office of Management and Budget.

This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with E.O. 13132 (Federalism), it is determined that this action does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

As noted above, this action is an order, not a rule. Accordingly, the Congressional Review Act (CRA) is inapplicable, as it applies only to rules. 5 U.S.C. 801, 804(3). It is in the public interest to maintain the temporary placement of 5F-EDMB-PINACA, 5F-MDMB-PICA, FUB-AKB48, 5F-CUMYL-PINACA and FUB-144 in schedule I because they pose a public health risk, for the reasons expressed in the temporary scheduling order (84 FR 15505, April 16, 2019). The temporary scheduling action was taken pursuant to 21 U.S.C. 811(h), which is specifically

designed to enable DEA to act in an expeditious manner to avoid an imminent hazard to the public safety. Under subsection 811(h), temporary scheduling orders are not subject to notice and comment rulemaking procedures. DEA understands that the CSA frames temporary scheduling actions as orders rather than rules to ensure that the process moves swiftly, and this extension of the temporary scheduling order continues to serve that purpose. For the same reasons that underlie subsection 811(h), that is, the need to place these substances in schedule I because they pose an imminent hazard to public safety, it would be contrary to the public interest to delay implementation of this extension of the temporary scheduling order.

Therefore, in accordance with 5 U.S.C. 808(2), this order extending the temporary scheduling order shall take effect immediately upon its publication. DEA will submit a copy of this order to both Houses of Congress and to the Comptroller General, although such filing is not required under the CRA, 5 U.S.C. 801–808, because, as noted above, this action is an order, not a rule.

D. Christopher Evans,

Acting Administrator.

Air Plan Approval; West Virginia; 1997 8-Hour Ozone National Ambient Air Quality Standard Second Maintenance Plan for the West Virginia Portion of the Wheeling, WV-OH Area Comprising Marshall and Ohio Counties

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a state implementation plan (SIP) revision submitted by the West Virginia Department of Environmental Protection (WVDEP) on behalf of the State of West Virginia (WV). This revision pertains to West Virginia's plan for maintaining the 1997 8-hour ozone national ambient air quality standard (NAAQS) for the West Virginia portion of the Wheeling, WV-OH area (Wheeling Area) comprising Marshall and Ohio Counties. EPA is approving these revisions to the West Virginia SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on April 30, 2021.

SUPPLEMENTARY INFORMATION:**I. Background**

On June 29, 2020 (85 FR 38831), EPA published a notice of proposed rulemaking (NPRM) for the State of West Virginia. In the NPRM, EPA proposed approval of West Virginia's plan for maintaining the 1997 ozone NAAQS through June 14, 2027, in accordance with CAA section 175A. The formal SIP revision was submitted by WVDEP on December 10, 2019.

II. Summary of SIP Revision and EPA Analysis

On May 15, 2007 (72 FR 27247, effective June 14, 2007), EPA approved a redesignation request (and maintenance plan) from WVDEP for the Wheeling Area. Per CAA section 175A(b), at the end of the eighth year after the effective date of the redesignation, the state must also submit a second maintenance plan to ensure ongoing maintenance of the standard for an additional 10 years, and in *South Coast Air Quality Management District v. EPA* (South Coast II),¹ the D.C. Circuit held that this requirement cannot be waived for areas, like the Wheeling Area, that had been redesignated to attainment for the 1997 ozone NAAQS prior to revocation and that were designated attainment for the 2008 ozone NAAQS. CAA section 175A sets forth the criteria for adequate maintenance plans. In addition, EPA has published longstanding guidance
