SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On April 17, 2020, we published in the **Federal Register** (86 FR 21450) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on June 16, 2020. No comments were received in response to that notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Abstract: Improving customer experience with Federal services is part of the President's Management Agenda (OMB Circular A-11, Section 280, "Managing Customer Experience and Improving Service Delivery"). The collection of information is necessary to enable the Service to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. Additionally, this new programmatic clearance is needed in order to be more responsive to Secretarial Orders 3356 (hunting and fishing opportunities), 3362 (big game habitat), and 3366 (outdoor recreation). This proposed new collection of information will also allow the Service to improve customer service delivery and response. This is important because OMB Circular A-11 designates the Service as a High-Impact Service Provider.

The programmatic clearance applies to social science surveys, interviews, and focus groups designed to provide information to Service managers and practitioners to improve quality and utility of agency programs, services, and planning efforts. To ensure continuous improvement, Service activities and projects require ongoing systematic assessment of their design, implementation, and outcomes. Data from collections undertaken through the proposed programmatic clearance would provide information for planning, monitoring, and evaluating National Wildlife Refuge System efforts as well as efforts of other Service programs. The scope of this programmatic clearance includes individual surveys, focus groups, and interviews of refuge visitors, potential visitors, and residents of communities near Service-managed units, and stakeholders and partners, including tribal interests.

To qualify for the generic programmatic review process, survey questions must show a clear tie to Service management needs. The programmatic review may only be used for noncontroversial information collections that are unlikely to attract or include topics of significant public interest. We must obtain OMB approval of all surveys developed using the pre-approved suite of questions before the survey can be initiated. This suite of questions will be used to develop customer experience and satisfaction surveys to meet requirements of OMB Circular A-11, as well as commitments to respond to the above-named Secretarial Orders.
