

mitigation, habitat restoration, predation management, and hatchery reforms.

In considering whether the application should be approved or denied, the MMPA requires that the Task Force and NMFS consider: (1) Population trends, feeding habits, the location of the pinniped interaction, how and when the interaction occurs, and the number of animals involved; (2) past efforts to deter such pinnipeds, and whether the applicant has demonstrated that no feasible and prudent alternatives exist and that the applicant has taken all reasonable nonlethal steps without success; (3) the extent to which such pinnipeds are causing undue injury impact to, or imbalance with, other species in the ecosystem, including fish populations; and (4) the extent to which such pinnipeds are exhibiting behavior that presents an ongoing threat to public safety.

Request for Comments and Other Information

NMFS solicits public comments on the application and any additional information that should be considered by the Task Force in making its recommendation, or by NMFS in making its determination whether to approve or deny the application. NMFS is interested in receiving additional information related to the factors that must be considered in determining whether to approve or deny the application (see Background), and on the impact of sea lion predation within the geographic area (see Summary) established in section 120(f) on the above-mentioned fish stocks.

NMFS requests that comments be specific. In particular, we request information regarding: (1) Observations of sea lion predation activity on salmonids and eulachon within the geographic area (see Summary) established in section 120(f); (2) information on areas where numbers of sea lions are concentrated within the geographic area (see Summary) established in section 120(f), including resting/haul out sites and locations where sea lions have been repeatedly observed taking salmonids and eulachon; and (3) dates when sea lions have been observed within the geographic area (see Summary) established in section 120(f).

NMFS also solicits the names and affiliations of experts from the academic and scientific community, tribes, Federal and state agencies, and the private sector for consideration as potential Task Force members. A Task Force, established under section 120(c) must, to the maximum extent practicable, consist of an equitable

balance among representatives of resource users and non-users as outlined above. Nominations for Task Force membership must include sufficient background information (*e.g.*, 1-page resume) on the candidate to allow us to judge their expertise and should indicate the prospective candidate's willingness to serve without compensation.

Dated: August 26, 2019.

Catherine Marzin,

RIN 0648-XT014

Schedules for Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshops.

SUMMARY: Free Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops will be held in October, November, and December of 2019. Certain fishermen and shark dealers are required to attend a workshop to meet regulatory requirements and to maintain valid permits. Specifically, the Atlantic Shark Identification Workshop is mandatory for all federally permitted Atlantic shark dealers. The Safe Handling, Release, and Identification Workshop is mandatory for vessel owners and operators who use bottom longline, pelagic longline, or gillnet gear, and who have also been issued shark or swordfish limited access permits. Additional free workshops will be conducted during 2020 and will be announced in a future notice.

DATES: The Atlantic Shark Identification Workshops will be held on October 10, November 14, and December 12, 2019. The Safe Handling, Release, and Identification Workshops will be held on October 16, October 18, November 4, November 19, December 6, and December 17, 2019. See **SUPPLEMENTARY INFORMATION** for further details.

ADDRESSES: The Atlantic Shark Identification Workshops will be held in Somerville, MA; Mount Pleasant, SC;

and Largo, FL. The Safe Handling, Release, and Identification Workshops will be held in Manahawkin, NJ; Port Saint Lucie, FL; Key Largo, FL; Kitty Hawk, NC; Kenner, LA; and Ronkonkoma, NY. See **SUPPLEMENTARY INFORMATION** for further details on workshop locations.

FOR FURTHER INFORMATION CONTACT: Rick Pearson by phone: (727) 824-5399.

SUPPLEMENTARY INFORMATION: The workshop schedules, registration information, and a list of frequently asked questions regarding the Atlantic Shark ID and Safe Handling, Release, and ID workshops are posted on the internet at: <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/atlantic-shark-identification-workshops> and <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/safe-handling-release-and-identification-workshops>.

Atlantic Shark Identification Workshops

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic sharks (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Thus, certificates that were initially issued in 2016 will be expiring in 2019. Approximately 163 free Atlantic Shark Identification Workshops have been conducted since April 2008.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification Workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit which first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer reports. Atlantic shark dealers are prohibited from renewing a Federal shark dealer permit unless a valid Atlantic Shark Identification Workshop certificate for each business location that first receives Atlantic sharks has been submitted with the permit renewal application. Additionally, trucks or

other conveyances that are extensions of a dealer's place of business must possess a copy of a valid dealer or proxy Atlantic Shark Identification Workshop certificate.

Workshop Dates, Times, and Locations

1. October 10, 2019, 12 p.m.—4 p.m., La Quinta Inn, 23 Cummings Street, Somerville, MA 02145.
2. November 14, 2019, 12 p.m.—4 p.m., Hampton Inn, 1104 Isle of Palms Connector Mt. Pleasant, SC 29464.
3. December 12, 2019, 12 p.m.—4 p.m., Hampton Inn, 100 East Bay Drive, Largo, FL 33770.

Registration

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander at ericssharkguide@yahoo.com or at (386) 852-8588. Pre-registration is highly recommended, but not required.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items to the workshop:

- Atlantic shark dealer permit holders must bring proof that the attendee is an owner or agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.
- Atlantic shark dealer proxies must bring documentation from the permitted dealer acknowledging that the proxy is attending the workshop on behalf of the permitted Atlantic shark dealer for a specific business location, a copy of the appropriate valid permit, and proof of identification.

Workshop Objectives

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

Safe Handling, Release, and Identification Workshops

Since January 1, 2007, shark limited-access and swordfish limited-access permit holders who fish with longline or gillnet gear have been required to submit a copy of their Safe Handling,

Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057; October 2, 2006). These certificate(s) are valid for 3 years. Certificates issued in 2016 will be expiring in 2019. As such, vessel owners who have not already attended a workshop and received a NMFS certificate, or vessel owners whose certificate(s) will expire prior to the next permit renewal, must attend a workshop to fish with, or renew, their swordfish and shark limited-access permits. Additionally, new shark and swordfish limited-access permit applicants who intend to fish with longline or gillnet gear must attend a Safe Handling, Release, and Identification Workshop and submit a copy of their workshop certificate before either of the permits will be issued. Approximately 328 free Safe Handling, Release, and Identification Workshops have been conducted since 2006.

In addition to certifying vessel owners, at least one operator on board vessels issued a limited-access swordfish or shark permit that uses longline or gillnet gear is required to attend a Safe Handling, Release, and Identification Workshop and receive a certificate. Vessels that have been issued a limited-access swordfish or shark permit and that use longline or gillnet gear may not fish unless both the vessel owner and operator have valid workshop certificates onboard at all times. Vessel operators who have not already attended a workshop and received a NMFS certificate, or vessel operators whose certificate(s) will expire prior to their next fishing trip, must attend a workshop to operate a vessel with swordfish and shark limited-access permits that uses longline or gillnet gear.

Workshop Dates, Times, and Locations

1. October 16, 2019, 9 a.m.—5 p.m., Holiday Inn, 151 Route 72, Manahawkin, NJ 08050.
2. October 18, 2019, 9 a.m.—5 p.m., Holiday Inn, 10120 South U.S. Highway 1, Port St Lucie, FL 34952.
3. November 4, 2019, 9 a.m.—5 p.m., Holiday Inn, 99701 Overseas Highway, Key Largo, FL 33037.
4. November 19, 2019, 9 a.m.—5 p.m., Hilton Garden Inn, 5353 North Virginia Dare Trail, Kitty Hawk, NC 27949.
5. December 6, 2019, 9 a.m.—5 p.m., Hilton Hotel, 901 Airline Drive, Kenner, LA 70062.
6. December 17, 2019, 9 a.m.—5 p.m., Marriott Courtyard, 5000 Express Drive South, Ronkonkoma, NY 11779.

Registration

To register for a scheduled Safe Handling, Release, and Identification Workshop, please contact Angler Conservation Education at (386) 682-0158. Pre-registration is highly recommended, but not required.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

- Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification.
- Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification.
- Vessel operators must bring proof of identification.

Workshop Objectives

The Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish, and prohibited sharks. In an effort to improve reporting, the proper identification of protected species and prohibited sharks will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the mortality of protected species and prohibited sharks, which may prevent additional regulations on these fisheries in the future.

Authority: 16 U.S.C. 1801 *et seq.*
