Citrus Canker Quarantined Areas; Technical Amendment

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule; technical amendment.

SUMMARY: In a final rule effective February 25, 2002, and published in the **Federal Register** on March 1, 2002, we amended the citrus canker regulations by removing a portion of Manatee County, FL, from the list of quarantined areas. We removed a portion of Manatee County, FL, from the list of quarantined areas that should not have been removed. Therefore, we are amending the citrus canker regulations so that they accurately reflect the boundaries of the quarantined areas in Manatee County, FL.

EFFECTIVE DATE: February 25, 2002.

SUPPLEMENTARY INFORMATION:

Background

In a final rule effective February 25, 2002, and published in the **Federal Register** on March 1, 2002 (67 FR 9389-9390, Docket No. 01-079-2), we amended the citrus canker regulations in 7 CFR 301.75-4(a) by removing a portion of Manatee County, FL, from the list of quarantined areas. As described in the final rule and in the proposed rule that preceded it (66 FR 59175-59176, Docket No. 01-079-1, published November 27, 2001), we intended to remove a 15-square-mile area in the northern part of the quarantined area in Manatee County, FL, that had been free

of citrus canker since February 1999 and had thus met the requirement for a declaration of eradication, as set forth in § 301.75-4(c) of the regulations.

In § 301.75-4(a), the description of the quarantined area in Manatee County, FL, is divided into two paragraphs. In order to remove the 15-square-mile area described in the proposed and final rules, we should have revised the first of those two paragraphs. However, due to a miscommunication, we revised the second paragraph instead and inadvertently removed the description of a 41-square-mile area in the eastern part of the county.

Therefore, in this document, we are correcting that error by revising the first paragraph of the entry for Manatee County, FL, in § 301.75-4(a) to reflect the removal of the 15-square-mile area in the northern part of the county, and we are restoring the description of the 41-square-mile area in the eastern part of the county. This action ensures that the citrus canker regulations will accurately reflect the boundaries of the quarantined areas in Manatee County, FL.
