

The evaluation of the CAM–FTDC project will collect data on children, parents/caregivers, family functioning and interagency collaboration. The domains specified in the Request for Applications (RFA) are: (1) Child Outcomes; (2) Parent/Caregiver Outcomes; (3) Family Functioning; and, (4) Interagency Collaboration.

To the greatest extent possible, the data elements are operationally defined using standard definitions in child welfare and substance abuse treatment. *The use of standard data definitions will reduce the data collection burden on grantees as these variables are collected through data collection procedures that currently exist through all publically funded child welfare and substance abuse treatment systems.* The CAM–FTDC performance measures are data currently collected by programs as part of their normal operations (*e.g.*, placement status in child welfare services, substance abuse treatment entry dates). Thus, no primary data collection from clients will be required as the grantees will be abstracting existing data. The information utilized for the North Carolina Family Assessment Scale rating is obtained

during the intake interview that sites engage in when determining program eligibility and suitability. If needed, the CAM FTDC staff member may supplement this information by obtaining information from other staff that interact with the client (*i.e.*, the social worker familiar with the family) or during a home visit (if this is part of their program activities).

It should be re-emphasized that the CAM–FTDC projects are expansions or enhancements of FTDC partnerships that currently have existing relationships (and information sharing/confidentiality agreements) in place. It is through this existing information sharing forum that the CAM grantees will be able to obtain the requisite child welfare and substance abuse treatment performance measures.

The grantees will use electronic abstraction and secondary data collection for elements that are already being collected by counties and States in their reporting requirements of Federally-mandated data. There are five data sources that will be used to collect and report the performance measures: Two Federal child welfare data sets, a Federal substance abuse treatment data set, the North Carolina Family

Assessment Scale, and an interagency collaboration survey administered to CAM FTDC program staff.

Exhibit 1 presents the estimated total cost burden associated with the collection of the CAM–FTDC data elements. The following estimates represent the minimum CAM–FTDC clients required to be served by the CAM–FTDC grantees (*i.e.*, a minimum of 20 methamphetamine-using clients is required in order to have a sufficient number of participants in the program × 12 grantees). The identified respondent for the annualized hour burden for the child, parent/caregiver and family functioning elements is the grantee staff person who will extract data from CAM–FTDC client. For the interagency collaboration measure, the respondent is identified as a CAM–FTDC staff member. It is estimated that 10 CAM–FTDC staff members from each of the 12 grantees will complete the interagency collaboration measure. The estimated total cost of the time that will be spent completing data collection is \$18,400 (total number of respondent hours × \$18.40, the estimated average hourly wages for adults as published by the Bureau of Labor Statistics, 2010).

EXHIBIT 1—ANNUALIZED HOUR BURDEN

Form/Instrument	Number of records	Responses per record	Total responses	Hours per response ¹	Total hour burden
CAM Form—Secondary extraction (12 sites × 20 families)	240	2	480	.5	240
North Carolina Family Assessment Form—Scale-General + Reunification (NCFAS – G + R) (12 sites × 20 families)	240	2	480	.5	240
Collaborative Capacity Instrument—(CCI) (12 sites × 10 families)	120	1	120	.33	39.6
Total	600		1,080		519.6

¹ The estimated response burden includes the extractions and uploads to the CAM Form and the North Carolina Family Assessment Form.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities, Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection

plans, call the SAMHSA Reports Clearance Officer on 240–276–1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Triennial Evaluation of the Projects for Assistance in Transition from Homelessness (PATH)—New

The Center for Mental Health Services awards grants each fiscal year to each of the States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands from allotments authorized under the PATH program established by Public Law 101–645, 42 U.S.C. 290cc–21 *et seq.*, the Stewart B. McKinney Homeless Assistance Amendments Act of 1990 (section 521 *et seq.* of the Public Health Service (PHS) Act). Section 522 of the PHS Act requires that the grantee States and Territories must expend their payments under the Act solely for making grants to political subdivisions of the State, and to nonprofit private entities (including community-based veterans' organizations and other community organizations) for the purpose of providing services specified in the Act. Available funding is allotted in accordance with the formula provision of section 524 of the PHS Act.

This submission is for a collection of contextual, process, and outcome

information to evaluate the national PATH program. Section 528 of the PHS Act specifies that the Administrator of the Substance Abuse and Mental Health Services Administration shall evaluate at least once every 3 years the expenditures of grants under this part by eligible entities in order to ensure that expenditures are consistent with the provisions of this part. The evaluation shall include recommendations regarding changes in program design or operations.

The Proposed Data Collection Includes

- Interviews with 10 State Path Contacts (SPCs) and an online survey with all 56 SPCs to gather more information on how States plan, solicit, and monitor local providers using PATH funding; the challenges faced in their operating environment, in working with the populations they serve, and the environment in which they work; remaining gaps and needs as well as possible solutions and recommendations for bridging gaps and filling needs and improving PATH efficiency and effectiveness.
- Interviews with 20–60 local providers and an online survey with 1 representative who provides face-to-

face, PATH-funded services to clients selected randomly from each local service provider (n = 483). Like SPC interviews and online surveys, the focus of this part of the data collection effort will be on assessing local providers' views on the challenges faced in their operating environment, in working with the populations they serve and the environment in which they work; on training received and needed; reporting requirements and burden; remaining gaps and needs and possible solutions and recommendations for bridging gaps and filling needs and improving PATH efficiency and effectiveness.

- Focus groups with 8–12 consumers that will be conducted on location at each of the 10 PATH locations selected for site visitation. The focus groups will assess clients' knowledge of PATH; the types of services they receive; satisfaction with services received; perceived needs that are not being met; and recommendations to improve service access, delivery, and comprehensiveness.

The estimated total burden for the reporting requirements for the triennial PATH evaluation is summarized in the table below.

TABLE 1—ANNUAL BURDEN

PATH evaluation	Number of respondents	Responses/respondent	Total responses	Hours/response	Total hour burden
Online Surveys:					
State PATH Contact	56	1	56	1	56
PATH Provider	483	1	483	.75	363
Site Visit Interviews (10 sites):					
State PATH Contact	*10	1	10	1.1	11
Provider Staff—Supervisor/Administrator	**30	1	30	.67	20
Provider Staff—Outreach Worker/Case Manager	***30	1	30	.67	20
Consumer Focus Group Discussion	****120	1	120	1.5	180
Total	729		729		650

* 1 respondent × 10 sites = 10 total respondents.

** Up to 3 respondents × 10 sites = 30 total respondents.

*** Up to 3 respondents × 10 sites = 30 total respondents.

**** Up to 12 respondents × 10 sites = 120 respondents.
