### SUPPLEMENTARY INFORMATION:

#### Addition

On December 3, 2004, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (69 F.R. 70223) of proposed additions to the Procurement List.

The following comments pertain to Tape, Pressure Sensitive.

Comments were received from the current contractor for these tapes in response to a Committee request for sales data. The contractor stated that it would experience an initial drop in sales volume, followed by termination of three employees, all with families, immediately. The contractor also noted that it had recently been certified as a participant in the 8(a) program.

The percentage of its sales which the contractor stated it would lose is well below the level which the Committee normally considers to constitute severe adverse impact. The current contract was not awarded under the 8(a) program, so the Committee's policy on refraining from adding products and services on 8(a) contracts to the Procurement List is not applicable in this situation. Taking all these circumstances into account, the Committee considers it appropriate to add the tapes to the Procurement List and create jobs for blind persons, whose unemployment rate is higher than the

persons who will likely lose their jobs as a result of the Committee's action.

The following material pertains to item being added to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and impact of the additions on the current or most recent contractors, the Committee has determined that the products listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

### Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products to the Government.

2. The action will result in authorizing small entities to furnish the products to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the products proposed for addition to the Procurement List.
