COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton, Wool and Man-Made Fiber Textiles and Textile Products Produced or Manufactured in Taiwan; Correction

November 18, 2004.

In the letter to the Commissioner, Bureau of Customs and Border Protection published in the **Federal Register** on November 12, 2004 (69 FR 65414), on page 65415, 2nd column, in the table listing import restraint limits, please insert Categories 338/339 with the limit of 1,054,585 dozen under “Sublevels in Group II”, as it was inadvertently left out.

James C. Leonard III,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–S

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee meeting.

SUMMARY: The Defense Science Board Task Force on Force Protection in Urban and Unconventional Environments will meet in closed session on December 1–2, 2004, at Fort Irwin, CA; 29 Palms, CA; and March Air Reserve Base, CA. This Task Force will review and evaluate force protection capabilities in urban and unconventional environments and provide recommendations to effect change to the future Joint Force.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. Specifically, the Task Force’s foci will

be to evaluate force protection in the context of post major combat operations that have been conducted in Iraq and Afghanistan. In the operations, loss of national treasure—military and civilian, U.S. and other nations—has resulted from actions executed by non-state and rogue actors. The threat and capabilities these insurgent, terrorist and criminal actions present post a most serious challenge to our ability to achieve unified action.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92–463, as amended (5 U.S.C. App. 2), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

Due to scheduling difficulties, there is insufficient time to provide timely notice required by Section 10(a)(2) of the Federal Advisory Committee Act and § 101–6.1015(b) of the GSA Final Rule on Federal Advisory Committee Management, 41 CFR Part 101–6, which further requires publication at least 15 calendar days prior to the meeting.

Dated: November 17, 2004.

Jeannette Owings-Ballard,

OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE 5001–06–P

DEPARTMENT OF ENERGY

Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Consolidation of Nuclear Operations Related to Production of Radioisotope Power Systems; Correction

AGENCY: Department of Energy.

ACTION: Notice of Intent; correction.

SUMMARY: The Department of Energy published a notice of intent in the **Federal Register** on November 16, 2004, (69 FR 67139) announcing its intent to prepare an environmental impact statement (EIS), for the proposed consolidation of nuclear activities related to production of radioisotope power systems required for Government national security and space exploration missions at a single, highly secure DOE site. The document contained an incorrect telephone number and an incorrect street address for a public meeting.

Corrections

In the **Federal Register** of November 16, 2004, in FR Doc. 04–25406, on page

67140, the following corrections should be made:

First column, first paragraph,
Twin Falls, ID: 1586 Blue Lakes Blvd.
North,

Second column, under **ADDRESSES**
heading, first paragraph,

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[Docket Nos. PP 39–1 and PP–96–2]

Applications To Transfer Presidential Permits; Boise Cascade Corporation and Boise White Paper, LLC

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of applications.

SUMMARY: Boise Cascade Corporation (Boise) and Boise White Paper, L.L.C. (BWP) have jointly applied to transfer Presidential Permits PP–39 and PP–96 from Boise to BWP.

DATES: Comments, protests or requests to intervene must be submitted on or before December 27, 2004.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (FAX 202–287–5736).

FOR FURTHER INFORMATION CONTACT:

Ellen Russell (Program Office) 202–586–9624 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to

Executive Order (EO) 10485, as amended by EO 12038. Existing Presidential permits are not transferable or assignable. However, in the event of a proposed voluntary transfer of physical facilities, in accordance with the regulations at 10 CFR 205.323, the existing holder of a permit and the transferee are required to a file joint application for transfer with the Department of Energy (DOE) that includes a statement of reasons for the transfer.

On November 7, 1966, the Federal Power Commission, the predecessor agency of the DOE, issued Presidential Permit PP-39 to Boise for a double circuit 6.6 kilovolt (kV) electrical transmission line (operated as a single circuit) that crosses the United States border with Canada at International Falls, Minnesota.

On July 7, 1994, DOE issued Presidential Permit PP-96, as amended, to Boise for a 115-kV electrical transmission line that crosses the United States border with Canada in the vicinity of International Falls, Minnesota. These facilities share the support structure with a 115-kV international transmission line owned and operated by Minnesota Power and authorized in Presidential Permit PP-78.

On November 1, 2004, Boise and BWP (collectively, the "Applicants") jointly filed an application with DOE to transfer Presidential Permits PP-39 and PP-96 from Boise to BWP. Boise and BWP have entered into a purchase and sale agreement that will result in Boise selling its Minnesota paper mill and electrical assets and exiting the paper business in Minnesota. BWP is a newly-formed holding company owned by Boise Cascade and will be a privately held company. In a supplemental filing in this docket on November 19, 2004, Boise notified DOE that the asset sale of the international transmission facilities was completed on October 29, 2004.

In these applications, the Applicants state that there will be no physical changes to the existing permitted facilities.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to these applications should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the joint applications to transfer Presidential Permit PP-39 or PP-96 from Boise to BWP should be clearly marked with Dockets PP-39-1 and PP-96-2. Dennis L. Radocha, Associate General Counsel, Boise Cascade Corporation, 1111 West Jefferson Road, P.O. Box 50, Boise, ID 83728; Brian R. Land, Esq., Kirkland & Ellis LLP, 655 Fifteenth Street, NW., Suite 1200, Washington, DC 20005; and Terry Ward, Vice President, Minnesota Operations, International Falls Paper Mill, Boise Paper Solutions, Boise Cascade Corporation, 400 Second Street, International Falls, MN 56649-2387.

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action(s) will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action(s) pursuant to the National Environmental Policy Act of 1969. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of these applications will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Electricity Regulation," and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on November 18, 2004.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Fossil Energy.
