

the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and Program Division, Office of Air Quality Planning and Standard, D243-05, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (919) 541-0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through July 31, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on August 6, 2024 during a 60-day comment period (89 FR 63933). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed on or Before August 30, 1999 were originally promulgated in December 1995, but were vacated by the Federal Court during March 1997. Subsequently, the Emission Guidelines were re-proposed on August 30, 1999; and promulgated on December 6, 2000. The Emission Guidelines regulate organics (dioxin/furans), metals (cadmium, lead, mercury), particulate matter, and acid gases (hydrogen chloride, sulfur dioxide, and nitrogen oxides) for small Municipal Waste Combustion (MWC) units. Small MWC units are MWC units with capacities to

combust greater than 35 tons per day (tpd) and less than 250 tons per day (tpd) of municipal solid waste. The Emission Guidelines contain monitoring, reporting, and recordkeeping requirements that are to be included in state plans. If a State/Local Agency does not develop, adopt, and submit an approvable State plan, then facilities in that state are subject to the Federal Plan (Federal Plan Requirements for Small Municipal Waste Combustion Units Constructed On or Before August 30, 1999 (40 CFR part 62, subpart JJJ)), adopted on January 31, 2003. The Federal Plan implements the emission guidelines in jurisdictions that have not developed an approved State Plan. These regulations do not directly apply to small MWC unit owners and operators. However, MWC unit owners and operators must comply with either the State or Federal plans to implement the emission guidelines contained in this Subpart. This Information Collection Request (ICR) identifies the burden to both respondents (owners or operators of small MWC units) and the Designated Administrator (either state/local agencies or the Federal government) to implement the emission guidelines imposed by the State plans. This information is being collected to assure compliance with 40 CFR part 60, subpart BBBB.

In general, all Emission Guidelines require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to these Emission Guidelines.

**Form Numbers:** None.

**Respondents/affected entities:** Small MWC units constructed on or before August 30, 1999.

**Respondent’s obligation to respond:** Mandatory (40 CFR part 60, subpart BBBB).

**Estimated number of respondents:** 14 (total).

**Frequency of response:** Initially, annually, and semiannually.

**Total estimated burden:** 55,600 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$5,321,000 (per year), which includes \$411,000 annualized capital or operation & maintenance costs.

**Changes in the estimates:** There is a decrease of 30,900 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to more accurate estimates of existing sources. The EPA has determined that several sources have closed since the previously-approved ICR renewal. Because there is a decrease in the number of respondents, there is also a decrease in the capital/O&M costs from the most recently approved ICR. The capital/O&M costs were increased from 2009 \$ to 2023 \$ using the CEPCI CE Index; however, the result is a net decrease in the capital/O&M costs.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2025-0626]; FRL-12886-01-OCSPF]

### Approval of a Test Marketing Exemption for a New Chemical Under the Toxic Substances Control Act (TSCA)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA or the Agency) is providing notice of its approval of an application for test marketing exemption (TME) under the Toxic Substances Control Act (TSCA). EPA has designated this application as T-24-0001. The test marketing conditions are described in the TME application and in this document.

**ADDRESSES:** The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2025-0626, is available online at <https://www.regulations.gov>. Additional information about dockets generally, along with instructions for visiting the docket in-person, is available at <https://www.epa.gov/dockets>.

#### FOR FURTHER INFORMATION CONTACT:

**For technical information:** Meg Victor, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 343-9193; email address: [victor.meg@epa.gov](mailto:victor.meg@epa.gov).

**For general information:** The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620;

telephone number: (202) 554-1404;  
email address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Executive Summary

###### A. Does this action apply to me?

This action provides information directed to the public in general and to the chemical manufacturer that submitted to EPA the TME application designated T-24-0001.

###### B. What action is the Agency taking?

This document provides notice of EPA's approval of an application for test marketing exemption (TME) under the Toxic Substances Control Act (TSCA). EPA also provides information on its website about exemption applications reviewed under TSCA, including exemption applications received, the date of receipt, and the status and effective date of EPA's decision on its website at: <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/exemptions-table>.

###### C. What is the Agency's authority for taking this action?

TSCA section 5(h)(1) authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture (which includes import) new chemicals for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the chemicals for test marketing purposes will not present any unreasonable risk of injury to health or the environment, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Administrator for the specific conditions of use identified in the application. EPA's regulations implementing TSCA section 5(h)(1) are at 40 CFR 720.38.

TSCA section 5(h)(6) requires EPA to publish in the **Federal Register** notice of receipt of an application for a TME and of the disposition of the application. The implementing regulation (40 CFR 720.38(d)) requires EPA to publish a notice in the **Federal Register** explaining the reasons for approval or denial.

##### II. Summary of Test Marketing Exemption Application

- TME Application No.: T-24-0001.
- Date of Receipt: April 15, 2024.
- Notice of Receipt: May 21, 2024 (89 FR 44674; FRL-11683-04-OCSPP).
- Applicant: Zschimmer & Schwarz.
- Chemical: Isomerized alkane derivs. (generic name).

- Use: Raw material in ester manufacturing, to be fully consumed.
- Production Volume: 50,000 kilograms per year.
- Number of Customers: None.
- Test Marketing Period: 365 days, commencing on first day of commercial manufacture.

##### III. EPA Approval of the Test Marketing Exemption

EPA approved the TME application designated as T-24-0001 on December 19, 2024. EPA determined that test marketing the new chemical substance, under the conditions set out in the TME application, will not present any unreasonable risk of injury to health or the environment, including to a potentially exposed or susceptible subpopulation identified by the Administrator for the specific conditions of use identified in the application.

The test marketing period, production volume, number of customers, and use must not exceed specifications in the application. All other conditions and restrictions described in the application and in this document must also be met.

###### A. What restrictions apply to this TME?

EPA may impose restrictions considered appropriate by the Agency on test marketing activities and may modify or revoke this TME upon receipt of any information that indicates the test marketing activity may present an unreasonable risk of injury to health or the environment. The following additional restrictions apply to this TME:

- A bill of lading accompanying each shipment must state that the use of the chemical is restricted to that approved in the TME.
- The applicant shall maintain the following records for 5 years after the date they are created and shall make them available for inspection or copying in accordance with TSCA section 11:
  - Records of the quantity of the TME chemical produced and the date of manufacture;
  - Records of dates of the shipments to each customer and the quantities supplied in each shipment; and
  - Copies of the bill of lading that accompanies each shipment of the TME chemical.

###### B. What was EPA's risk assessment for this TME?

EPA did not identify unreasonable risks to health or the environment for the test market chemical under the intended conditions of use described in the TME application. EPA estimated that the chemical has high

environmental toxicity; however, the chemical substance will not be released to water. Additionally, EPA identified potential risks to workers, which are addressed by the personal protective equipment requirements in the Safety Data Sheet for the chemical substance. Therefore, the test market activities will not present any unreasonable risk of injury to human health or the environment, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Administrator for the specific conditions of use identified in the application.

###### C. Can EPA change its decision on this TME in the future?

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption upon the receipt or evaluation of any information, new or existing, that indicates the test marketing activities may present an unreasonable risk of injury to human health or the environment.

*Authority:* 15 U.S.C. 2601 *et seq.*

*Dated:* July 21, 2025.
