### Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before February 14, 2022. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [nicole.ongele@fcc.gov](mailto:nicole.ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

*Needs and Uses:* The Commission uses the study area boundary data collected through 3060–1181 to implement certain universal service reforms. The Universal Service Fund supports the deployment of voice and broadband-capable infrastructure in rural, high cost areas. High-cost support is granted to a carrier based on the characteristics of its “study area,” the geographic area served by an incumbent local exchange carrier within a state. Therefore, complete and accurate study area boundary data are essential for calculating a carrier's costs and expenses, which in turn determine the amount of support that carrier can receive to serve high-cost areas. In December 2012, the Commission submitted a request for emergency preapproval of this collection, which the Office of Management and Budget (OMB) granted on January 23, 2013. On June 12, 2013, the Commission submitted a request for a three-year extension of the collection to July 31, 2016 (78 FR 34382), which OMB approved on July 31, 2013 (78 FR 76312). Initial study area boundaries were submitted in 2013. These maps were submitted via a secure internet-browser web interface developed and maintained by the Commission. If a study area boundary changes, filers are required to submit, via this interface, revised boundary data incorporating such changes by March 15 of the year following the change. In addition, all filers are required to recertify their study area boundaries every two years.

9000–0149, Subcontract Consent and Contractors' Purchasing System Review.

##### B. Need and Uses

This clearance covers the information that a contractor must submit to comply with the requirements in Federal Acquisition Regulation (FAR) 52.244–2, Subcontracts, regarding consent to subcontract, advance notification, and Contractors' purchasing system review as follows:

1. Consent to subcontract. This is the contracting officer's written consent for the prime contractor to enter into a particular subcontract. In order for the contracting officer responsible for consent to make an informed decision, the prime contractor must submit adequate information to ensure that the proposed subcontract is appropriate for the risks involved and consistent with current policy and sound business judgment. The review allows the Government to determine whether the contractor's purchasing policies and practices are efficient and adequately protect the Government's interests.

If the contractor has an approved purchasing system, consent is required for subcontracts specifically identified by the contracting officer in the subcontracts clause of the contract. The contracting officer may require consent to subcontract if the contracting officer has determined that an individual consent action is required to protect the Government adequately because of the subcontract type, complexity, or value, or because the subcontract needs special surveillance. These can be subcontracts
