Abstract of Information Available

Human remains representing, at least, two individuals have been identified. No associated funerary objects are present. Remains were discovered in a private residence in Florissant, Missouri on May 5, 2024. They were reportedly originally collected by a private citizen in the 1960's in Clarksville, Missouri, near the Clarksville Mound Groups site, 23PI6. These remains are from the Late Woodland to Emergency Mississippian Period and culturally affiliated with the Osage Nation.

Cultural Affiliation

Repatriation of the human remains described in this notice to a requestor may occur on or after November 21, 2024. If competing requests for repatriation are received, the St. Louis County MEO must determine the most appropriate requestor prior to repatriation.
