

released to spawn naturally; adult hatchery-origin fish in excess of broodstock needs could be used for nutrient enhancement or be made available for harvest. The application describes monitoring and evaluation activities that would also occur. The purpose of this program is to enable Grant PUD to comply with the terms of the Priest Rapids Project Salmon and Steelhead Settlement Agreement and its Federal Energy Regulatory Commission license for the operation of the Priest Rapids Hydroelectric Project.

Subsequent to providing the original application, the WDFW provided an addendum to the HGMP describing how management of returning adult spring Chinook salmon would be addressed in conjunction with the hatchery program. The adult management plan represents an important component of the permit application.

Authority

NEPA requires Federal agencies to conduct an environmental analysis of their proposed actions to determine if the actions may affect the human environment. NMFS expects to take action on an application for a permit under section 10(a)(1)(A) of the ESA. Therefore, NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives and associated impacts of any alternatives.

SUMMARY: On May 15, 2013, the United States Air Force signed the Second ROD for the Barry M. Goldwater Range East Range Enhancements Final Environmental Impact Statement. This ROD states the Air Force decision to implement three of the remaining four proposals analyzed in the Environmental Impact Statement. These three proposals include: Proposal 2, Establishing timely reviews and approval procedures to address reconfiguration of existing air-to-ground target complexes on tactical ranges; Proposal 5, lowering the regular flight altitude floor over a portion of the Cabeza Prieta National Wildlife Refuge; and Proposal 7, allowing additional training in combat search and rescue and similar ground-based and combined air-ground operations. While no decision has been made for the final proposal at this time, the Air Force anticipates issuing an additional ROD at a future date once consultations are complete for this proposal.

The decision was based on matters discussed in the Final Environmental Impact Statement (EIS), inputs from the public and regulatory agencies, and other relevant factors. The Final EIS was made available to the public on November, 26, 2010 through a NOA in the **Federal Register** (Volume 75, Number 227, Page 72824) with a wait period that ended on December 27, 2010. On May 20, 2011 the Air Force signed the first ROD for six proposals that were analyzed in the Final EIS. This ROD documents only the decision of the Air Force with respect to the proposed Air Force actions analyzed in the Final EIS.
