Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the ADDRESSES section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend three and remove one jet routes in the eastern United States. This action is associated with the planned decommissioning of the Atlanta VORTAC and the VOR MON program by amending and removing certain jet route segments that are being replaced by area navigation routing. Additionally, the proposed jet route changes would reduce aeronautical chart clutter by removing unneeded route segments.

The proposed route changes are as follows:

J-4: J-4 currently extends between the Los Angeles, CA, (LAX) VORTAC, and the Colliers, SC, (IRQ) VORTAC. The FAA proposes to remove the latter segment from the Meridian, MS, (MEI) VORTAC to the Colliers VORTAC. As proposed, the amendment route would extend between the Los Angeles, CA, (LAX) VORTAC and the Magnolia, MS, (MHZ) VORTAC.

J-45: J-45 currently extends between the Atlanta, GA, VORTAC, and the Aberdeen, SD, (ABR) VOR/Distance Measuring Equipment (VOR/DME). The FAA proposes to remove the Atlanta, GA, (ATL) VORTAC in the initial segment. As proposed, the amendment route would extend between the Nashville, TN, (BNA) VORTAC, and the Aberdeen, SD, (ABR) VOR/DME.

J-89: J-89 currently extends between the Atlanta, GA, VORTAC, and the Winnipeg, MB, Canada, (YWG) VORTAC. The FAA proposes to remove the Atlanta, GA, (ATL) VORTAC in the initial segment. As proposed, the amendment route would extend between the Louisville, KY, (IUU) VORTAC, and the Winnipeg, MB, Canada, (YWG) VORTAC. The portion within Canada is excluded.

J-239: J-239 currently extends between the Atlanta, GA, (ATL) VORTAC and the Meridian, MS, (MEI) VORTAC. The FAA proposes to remove the entire route.

Jet routes are published in paragraph 2004 of FAA Order JO 7400.11F dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The jet routes listed in this document would be subsequently amended in, or removed, respectively, from FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
