BILLING CODE P

DEPARTMENT OF LABOR**Agency Information Collection Activities; Comment Request; DOL Generic Solution for Funding Opportunity Announcements**

ACTION: Notice; request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (PRA), the DOL is soliciting public comments regarding the proposed extension of this Office of the Assistant Secretary for Administration and Management (OASAM)-sponsored information collection for the authority to continue the information collection request (ICR) titled, “DOL Generic Solution for Funding Opportunity Announcements,” currently approved under OMB Control Number 1225–0086. **DATES:** Consideration will be given to all written comments received by April 29, 2025.

ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Nora Hernandez by email at DOL_PRA_PUBLIC@dol.gov.

Electronic submission: You may submit comments and attachments electronically at DOL_PRA_PUBLIC@dol.gov, identified by OMB Control Number 1225–0086.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Nora Hernandez by telephone at 202–693–8633, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION:

Periodically the DOL solicits grant applications by issuing a Funding Opportunity Announcement. To ensure grants are awarded to the applicant(s) best suited to perform the functions of the grant, applicants are generally required to submit a two-part application. The first part of DOL grant applications consists of submitting Standard Form 424, Application for Federal Assistance. The second part of a grant application usually requires a technical proposal demonstrating the applicant’s capabilities in accordance with a statement of work and/or selection criteria.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of the Lead in Construction Standard and its collection of information (paperwork) requirements is to reduce occupational lead exposure in the construction industry. Lead exposure can result in both acute and chronic effects and can be fatal in severe cases of lead toxicity. Some of the health effects associated with lead exposure include brain disorders, which can lead to seizures, coma, and death; anemia; neurological problems; high blood pressure; kidney problems; reproductive problems; and decreased red blood cell production. The major collection of information requirements of the standard are: conducting worker exposure assessments; notifying workers of their lead exposures; establishing, implementing, and reviewing a written compliance program annually; labeling containers of contaminated protective clothing and equipment; providing medical surveillance to workers; providing examining physicians with specific information; ensuring that workers receive a copy of their medical surveillance results; posting warning signs; establishing and maintaining exposure monitoring, medical surveillance, medical removal, and objective data records; and providing workers with access to these records. The records are used by employees, physicians, employers, and OSHA to determine the effectiveness of the employer's compliance efforts.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in Lead in Construction Standard. The
