

methods, including public notices in local newspapers and a notice in the **Federal Register** (77 FR 26569, May 4, 2012). We held a public meeting to solicit comments on the Draft EIS/EIR on May 30, 2012. We identified and analyzed four alternatives in the Draft EIS/EIR.

Following public review of the Draft EIS/EIR, the Service and CDFW, in coordination with PCGID-PID, River Partners, and the design engineers, identified the preferred alternative, which includes installation of traditional riprap on the northwest bank of the Riparian Sanctuary, including a low berm along the gravel bar and a toe trench just off the gravel bar; removal of upstream rock; and site-specific plantings on the Riparian Sanctuary. A notice of availability of the Final EIS/EIR was published in the **Federal Register** on March 15, 2013. The record of decision documents our decision to support the implementation of the preferred alternative described in the Final EIS/EIR.

We provide this notice under regulations in the Code of Federal Regulations for implementing the National Environmental Policy Act (40 CFR 1506.6).
