Abstract of Proposed Collection

The Career Connections program is managed by the Bureau of Educational and Cultural Affairs (ECA) Office of Alumni Affairs OAA. Started in 2019, the Career Connections program brings together American alumni (18–35 years old) of U.S. Government-sponsored exchange programs with expert career coaches, professionals from diverse fields, and international leaders to help alumni market their international exchange experiences. Delivered as two-day seminars across the country, the Career Connections program provides invaluable networking opportunities for U.S. alumni with leaders in their communities with activities including: resume-building, developing a personal brand, translating skills gained through the exchange experience, developing an online presence, and networking to develop connections with fellow alumni and expert speakers alike.

ECA's Evaluation Division will undertake an internal evaluation of the Career Connections program. The purpose of this evaluation is to inform the next iteration of the award with participant-driven recommendations on how to strengthen the Career

Connections program. The Evaluation Division will survey participants of Career Connections participants along with a small sample of alumni that have not participated in seminars, as well as conduct key-informant interviews with alumni and seminar presenters.

Methodology

As existing project monitoring data does not cover the topics being investigated sufficiently, it is necessary to collect information directly from program alumni to fully understand how the Career Connections program can be strengthened and what the immediate outcomes for participants are. While alumni who have participated in the Career Connections program will receive an online survey, a small number will also be invited to participate in individual interviews to explore key issues in greater depth. The survey will also be sent to a small sample of alumni that have not participated in Career Connections seminars to understand why they haven't participated and how they could be enticed to in the future. Finally, as ECA wishes to understand best practices in professional development training, a small group of seminar presenters will be invited to participate in individual interviews to discuss what they feel could be strengthened.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on Transportation Project in Washington State

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice of limitation on claims for judicial review of actions by FHWA.

SUMMARY: This notice announces actions taken by the FHWA that are final. The action relates to refinements to the design of Portage Bay Bridge, Roanoke Lid, and other components in the Portage Bay to I-5 area for SR 520, I-5 to Medina construction in the City of Seattle, King County, State of Washington that are contained in the NEPA Reevaluation signed February 22, 2021 and Revised Section 4(f) Evaluation signed February 18, 2021.

DATES: A claim seeking judicial review of the Federal agency actions on the listed highway project will be barred unless the claim is filed on or before August 19, 2021. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT:

Lindsey Handel, Urban Transportation Engineer, Federal Highway Administration, 711 S. Capitol Way, Suite 501, Olympia, WA 98501-1284, 360-753-9480, or Washington.FHWA@dot.gov; or Margaret Kucharski, Megaprograms Environmental Manager, Washington State Department of Transportation, 999 3rd Ave, Suite 2200, Seattle, WA 98104, 206-770-3500, or Margaret.Kucharski@wsdot.wa.gov.

SUPPLEMENTARY INFORMATION: On September 7, 2011, FHWA published a "Notice of Final Federal Agency Actions on Proposed Highway in Washington" in the **Federal Register** at 76 FR 55459 for the SR 520, I-5 to Medina: Bridge Replacement and HOV Project. Notice is hereby given that, subsequent to the earlier FHWA notice, FHWA has taken final agency actions within the meaning of 23 U.S.C. 139(l)(1) by issuing a NEPA re-evaluation for the SR 520 SR 520, I-5 to Medina: Bridge Replacement and HOV Project: Portage Bay Bridge to I-5 Design Refinements (hereafter "re-evaluation"). The action(s) by FHWA and the laws under which such actions were taken, are described in the re-evaluation and the associated agency records. That information is available by contacting FHWA at the addresses provided above.

The project proposed to improve safety and mobility for people and goods across Lake Washington by replacing the SR 520 Portage Bay and Evergreen Point bridges and improve existing roadway between Interstate 5 (I-5) in Seattle and Evergreen Point Road in Medina spanning 5.2 miles. The Final Environmental Impact Statement (EIS) for the project was published in January 2011 and the Record of Decision (ROD) was issued in August 2011.

Since issuance of the FHWA ROD, the design of the Portage Bay Bridge, Roanoke Lid, and other components in the Portage Bay to I-5 area have been refined, including changes to the configuration of and connections to Portage Bay Bridge; refinement of the design of the Roanoke Lid; and refinements to the regional shared-use path and local active transportation connections. The re-evaluation considering these refinements was

prepared in February 2021. It identifies and documents potential effects associated with the refinement. The re-evaluation also includes a Revised Section 4(f) Evaluation that found there would be *de minimis* impacts on Interlaken Park and the Roanoke Park Historic District and that construction-phase effects on Roanoke Park would meet the temporary occupancy exception included in 23 CFR 774.13(d). FHWA has also determined that the revised project design would cause the least harm, it includes all possible planning to minimize harm, and that there would be no change to other Section 4(f) findings included in the Final EIS and ROD. This notice only applies to the Re-evaluation signed February 22, 2021 and the associated Revised Section 4(f) Evaluation signed February 18, 2021.

Information about the re-evaluation and associated records are available from FHWA and WSDOT at the addresses provided above and can be found at: <https://wsdot.wa.gov/Projects/SR520Bridge/Library/Environmental-Documents>.
