

Request for Comment on Information Collection Proposal

The Board invites public comment on the following information collection, which is being reviewed under authority delegated by the OMB under the PRA. Comments are invited on the following:

- Whether the proposed collection of information is necessary for the proper performance of the Board's functions, including whether the information has practical utility;
- The accuracy of the Board's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, utility, and clarity of the information to be collected;
- Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and
- Estimates of capital or startup costs and costs of operation, maintenance, and purchase of services to provide information.

At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the Board should modify the proposal.

Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection:

Report title: Semiannual Report of Derivatives Activity.

Agency form number: FR 2436.

OMB control number: 7100-0286.

Frequency: Semiannually.

Respondents: U.S. dealers of over-the-counter (OTC) derivatives.

Estimated number of respondents: 8.

Estimated average hours per response: 236.

Estimated annual burden hours: 3,776.

General description of report: The Semiannual Report of Derivatives Activity collects derivatives market statistics from the eight largest U.S. dealers of OTC derivatives. Data are collected on the notional amounts and gross fair values of the volumes outstanding of broad categories of foreign exchange, interest rate, equity, commodity-linked, and credit default swap OTC derivatives contracts across a range of underlying currencies, interest rates, and equity markets.

This collection of information complements the triennial Central Bank Survey of Foreign Exchange and

Derivatives Market Activity (FR 3036; OMB No. 7100-0285). The FR 2436 collects similar data on the outstanding volume of derivatives, but not on derivatives turnover. The Board conducts both surveys in coordination with other central banks. The aggregated U.S. data is compiled and forwarded to the Bank for International Settlements (BIS), which publishes global market statistics that are aggregates of national data.

Legal authorization and confidentiality: This report is authorized under sections 2A and 12A of the Federal Reserve Act (FRA). Section 2A of the FRA requires the Federal Reserve Board and the Federal Open Market Committee (FOMC) to maintain long run growth of the monetary and credit aggregates commensurate with the economy's long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates (12 U.S.C. 225a). Section 12A of the FRA requires the FOMC to implement regulations relating to the open market operations conducted by Federal Reserve Banks with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country (12 U.S.C. 263). Because the Federal Reserve System uses the information obtained from the FR 2436 to fulfill these obligations, these statutory provisions provide the legal authorization for the collection of information on the FR 2436.

The FR 2436 is voluntary. Because the release of this information would cause substantial harm to the competitive position of the entity from whom the information was obtained, the information collected on the FR 2436 may be granted confidential treatment under exemption (b)(4) of the Freedom of Information Act (5 U.S.C. 552(b)(4)), which protects from disclosure "trade secrets and commercial or financial information obtained from a person and privileged or confidential."

Board of Governors of the Federal Reserve System, April 11, 2019.

Michele Taylor Fennell,

Assistant Secretary of the Board.
