Total Annual Burden: 170,620 hours.

Total Annual Cost: No Cost.

Needs and Uses: In the *USF/ICC Transformation Order*, the Commission laid the groundwork for today’s universal service programs providing \$4.5 billion in support for broadband internet deployment in high-cost areas. *Connect America Fund*, et al., WC Docket No. 10–90, et al., Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). The *USF/ICC Transformation Order* required, among other things, that high-cost universal service recipients “test their broadband networks for compliance with speed and latency metrics and certify to and report the results to the Universal Service Administrative Company (USAC) on an annual basis.” *Id.* at 17705, para. 109. Pursuant to the Commission’s direction in that Order, the Wireline Competition Bureau, the Wireless Telecommunications Bureau, and the Office of Engineering and Technology (the Bureaus and OET) adopted more specific methodologies for such testing in the *Performance Measures Order*. See generally *Performance Measures Order*. See also 47 CFR 54.313(a)(6) (requiring that recipients of high-cost support provide “[t]he results of network performance tests pursuant to the methodology and in the format determined by the Wireline Competition Bureau, Wireless Telecommunications

Bureau, and Office of Engineering and Technology”). Addressing petitions for reconsideration, the Bureaus and OET adopted certain modifications and clarifications to the requirements pertaining to high-latency bidders in the Connect America Fund (CAF) Phase II auction, and the Commission refined the general testing requirements further. See generally *Connect America Fund*, WC Docket No. 10–90, Order on Reconsideration, DA 19–911 (WCB/WTB/OET 2019) (*Satellite-Related Performance Measures Order*); *Performance Measures Reconsideration Order*. In the *High Cost Administrative Order*, the Commission adopted a quarterly reporting and certification schedule, replacing the previous annual requirement, such that all carriers receiving high-cost support are required to report and certify their quarterly performance testing results within two weeks, rather than within one week, after the end of the quarter in which the tests are conducted. See *High Cost Administrative Order*, FCC 25–87, para. 138. Accordingly, this collection includes the requirements for testing speed and latency, and reporting and certifying such performance measures within two weeks after the end of each quarter to ensure that carriers are meeting the public interest obligations associated with their receipt of high-cost universal service support.

Carriers will identify, from among the locations they have already submitted and certified in USAC’s High Cost Universal Broadband (HUBB) portal, the locations where they have an active subscriber (deployment locations are reported under OMB Control Number 3060–1228, and active locations will be reported under this control number). From those subscriber locations, USAC will then select a random sample from which the carrier will be required to perform testing for speed and latency. Carriers that do not provide location information in the HUBB will use a randomization tool provided by USAC to select a random sample of locations for testing. Due to the rule changes that the Commission adopted on the *High Cost Administrative Order*, the carrier will then be required to submit to USAC the results of the testing on a quarterly basis. The quarterly filing will include the testing results from the prior quarter. The carrier’s sample for each service tier (e.g., 10 Mbps/1 Mbps, 25 Mbps/3 Mbps) shall be regenerated every two years. During the two-year cycle, carriers will have the ability to add and remove subscriber locations if necessary, e.g., as subscribership changes. Also, in July 2023, the

Commission adopted the Enhanced Alternative-Connect America Cost Model (E-ACAM) support mechanism, a new model-based offer to existing Alternative-Connect America Cost Model (A-CAM) I, A-CAM II, and Connect America Fund Broadband Loop Support (CAF BLS) carriers. See *Connect America Fund: A National Broadband Plan for Our Future High-Cost Universal Service Support et al.*, WC Docket No. 10–90 et al., Report and Order, Notice of Proposed Rulemaking, and Notice of Inquiry, FCC 23–60, at 23–24, para. 49 (July 24, 2023). Revisions include (1) a process for E-ACAM carriers to get a performance measures testing sample from non-HUBB reported locations, and (2) and reporting and certifying such performance measures within two weeks after the end of each quarter.
