[Project No. 2310–193–California; Project No. 2266–102–California]

Pacific Gas and Electric Company; Nevada Irrigation District; Notice of Availability of the Draft Environmental Impact Statement for the Drum-Spaulding and Yuba-Bear Hydroelectric Projects

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR part 380 [FERC Order No. 486, 52 FR 47897]), the Office of Energy Projects has reviewed the application for license for the Drum-Spaulding Project (FERC No. 2310) and the Yuba-Bear Project (FERC No. 2266) and has prepared a draft environmental impact statement (EIS) for the projects. The Drum-Spaulding Project is located within three primary river basins, the South Yuba River, Bear River, and North Fork of the North Fork American River, in Nevada and Placer Counties, California, and occupies 994 acres of federal lands administered by the Forest Service, Bureau of Land Management (BLM), and Bureau of Reclamation. The Yuba-Bear Project is located within three major river basins, the Middle Yuba River, South Yuba River, and Bear River, in Sierra, Nevada, and Placer Counties, California, and occupies 1,748 acres of federal lands administered by the Forest Service and BLM.

The draft EIS contains staff's analysis of the applicants' proposals and the alternatives for relicensing the Drum-Spaulding and Yuba-Bear Projects. The draft EIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicants, and Commission staff.

A copy of the draft EIS is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "e-Library" link.
