Nonmailable Items Prohibited in All Outbound International Mail—Update

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is revising and adding new standards which codify that replica and inert explosive devices, and counterfeit and pirated items are nonmailable in outbound international mail.

DATES: *Effective Date:* January 4, 2010.

FOR FURTHER INFORMATION CONTACT: Rick Klutts, 813-877-0372.

SUPPLEMENTARY INFORMATION: Consistent with Proposals 20.15.2 and 20.15.6—adopted by the 24th Congress of the Universal Postal Union (UPU) in Geneva Switzerland on July 23–August 12, 2008,—that amend Article 15 of the UPU Convention, we are revising *Mailing Standards of the United States Postal Service, International Mail Manual (IMM®)* to make replica and

inert explosive devices and counterfeit and pirated items nonmailable.

Replica and Inert Explosive Devices

Consistent with Proposal 20.15.2, this prohibition is intended to apply to devices that were originally designed for military or combat use (including training) and is also extended to replicas of such items. Specific items include replica and inert explosive devices and military ordnance, such as grenades, ammunition, shells and the like.

This prohibition does not extend to items such as children's toys or articles that do not represent such items in a realistic manner.

Counterfeit or Pirated Articles

Consistent with UPU Proposal 20.15.6, this prohibition is intended to reduce the circulation of counterfeit and pirated articles between UPU members. The prohibition also illustrates that the UPU's members actively support the World Customs Organization's current campaign to thwart production and circulation of counterfeited and pirated products, such as dangerous toys and electrical items, dangerous counterfeit medicines and counterfeit branded goods, which do economic harm to domestic and international companies.
