

Disabled, Inc., Salt Lake City, UT.
Contracting Activity: National Security
 Agency, Fort Meade, MD.

Deletions

On 2/7/2014 (79 FR 7428), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List.

After consideration of the relevant matter presented, the Committee has determined that the services listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 8501–8506 and 41 CFR 51–2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action may result in authorizing small entities to provide the services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501–8506) in connection with the services deleted from the Procurement List.

End of Certification

Accordingly, the following services are deleted from the Procurement List:

Services:

Service Type/Location: Janitorial/Custodial Service, Col Harold Steele USARC, 6482 Aurelia Street, Pittsburgh, PA.

NPA: Life'sWork of Western PA, Pittsburgh, PA.

Contracting Activity: Dept of the Army, W6QM MICC CTR–FT DIX (RC), Fort Dix, NJ.

Service Type/Location: Janitorial/Custodial Service, Major Charles D. Stoops USARC, 215 Center Street, Punxsutawney, PA.

NPA: Unknown.

Contracting Activity: Dept of the Army, W6QM MICC CTR–FT DIX (RC), Fort Dix, NJ.

Barry S. Lineback,

Director, Business Operations.

Department of the Air Force

Intent To Grant an Exclusive Patent License

ACTION: Notice.

SUMMARY: Pursuant to the provisions of Part 404 of Title 37, Code of Federal Regulations, which implements Public Law 96–517, as amended; the Department of the Air Force announces its intention to grant Compunetix, Inc., a corporation of the State of Pennsylvania, having a place of business at 2420 Mossie Boulevard, Monroeville, Pennsylvania, an exclusive license limited to the field of ground and shipboard voice communications applications and systems in any right, title and interest the Air Force has in: U.S. Patent No. 7,391,877, issued June 24, 2008, entitled “Spatial Processor For Enhanced Performance in Multi-Talker Speech Displays,” by Douglas S. Brungart.

The Air Force intends to grant a license for the patent unless a written objection is received within fifteen (15) calendar days from the date of publication of this Notice. Written objection should be sent to: Air Force Materiel Command Law Office, AFMCLO/JAZ, 2240 B Street, Rm. D–14, Wright-Patterson AFB, OH 45433–7109; Facsimile: (937) 255–3733.

Tommy W. Lee,

Acting Air Force Federal Register Liaison Officer.

Department of the Army

Final Environmental Impact Statement for the Implementation of Energy, Water, and Solid Waste Sustainability Initiatives at Fort Bliss, TX and NM

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The Department of the Army announces the availability of the Final Environmental Impact Statement (EIS) for the implementation of energy, water, and solid waste sustainability initiatives at Fort Bliss, Texas and New Mexico. The Department proposes to implement Net Zero energy, water, and waste initiatives at Fort Bliss, which would also facilitate meeting mandates for renewable energy production and greenhouse gas emissions reductions. In so implementing Net Zero, the Army

will enhance Fort Bliss' energy and water security, supporting the military mission into the future. Although some training land would be converted to other uses, Fort Bliss would not lose any overall training capability as a result of Net Zero project implementation. The Proposed Action consists of multiple, related, and interconnected projects to achieve Net Zero goals, comply with federal and Army energy mandates, and meet the Army's energy and water security objectives.

The proposed action has six alternatives. The Final EIS indicates that there could be significant impacts to air quality, vegetation, archeological sites, soils, land use, and traffic. Of these, all but land use (as a result of converting training land to developed land) are anticipated to be mitigable to less than significant.

DATES: The waiting period for the Final EIS will end 30 days after publication of the Notice of Availability in the **Federal Register** by the U.S. Environmental Protection Agency, at which time the Army may execute a record of decision.

ADDRESSES: Written comments may be addressed to Dr. John Kipp, Fort Bliss Directorate of Public Works, Attention: IMBL–PWE (Kipp), Building 624 Pleasonton Road, Fort Bliss, TX 79916; email: john.m.kipp6.civ@mail.mil; fax: (915) 568–3548.

FOR FURTHER INFORMATION CONTACT: Please contact Ms. Donita Kelley, Fort Bliss Public Affairs Office, Attention: IMBL–PA (Kelley), Building 15 Slater Road, Fort Bliss, TX 79916; phone: (915) 568–4505; email: donita.k.schexnaydre.civ@mail.mil.

SUPPLEMENTARY INFORMATION: The Army examined the potential environmental and socioeconomic impacts from implementing multiple, related, and interconnected proposed projects that could be taken to implement Net Zero energy, water, and waste initiatives, comply with federal and Army energy mandates, and meet the Army's energy and water security objectives. Not all projects analyzed in the Final EIS would be implemented to the full extent discussed in the document.

Technological advancements, legislative changes, and other factors may result in revisions to the proposed projects.

The preferred alternative (Proposed Action) consists of six action alternatives (Alternatives 2 through 7): Implementation of conservation policies and procedures (Alternative 2); construction of a water reclamation pipeline (Alternative 3); construction and operation of a waste-to-energy plant (Alternative 4); construction and operation of a geothermal energy facility

(Alternative 5); and construction of dry-cooled concentrating solar power technology (Alternative 6). Alternative 7 proposes implementation of other renewable energy technologies and projects that are compatible with installation planning criteria and address potential future renewable energy, water, and waste technology actions at a programmatic level. As warranted, additional site-specific documentation supporting National Environmental Policy Act processes will occur prior to execution of individual facility construction activities.

The Final EIS also analyzes the potential environmental impacts of the No Action Alternative (Alternative 1) and the cumulative impacts of the Proposed Action in combination with other past, present, and reasonably foreseeable future actions.

In developing the Final EIS, the Army took into consideration the comments received on the Draft EIS. Included among the changes made since publication of the Draft EIS are the removal of site-specific locations for a proposed waste-to-energy plant and a commitment to conduct further analysis, should the Army consider pursuing this type of technology in the future.

The Final EIS addresses potential environmental and socioeconomic impacts from implementation of the Proposed Action. Impacts range from beneficial to no effect to significant. There could be significant impacts to air quality, vegetation, archeological sites, soils, land use, and traffic. Of these, all but land use (as a result of converting training land to developed land) and soils (disturbance of up to 300 acres for construction of concentrating solar power arrays) are anticipated to be mitigable to less than significant. Potentially beneficial impacts are projected for air quality, energy demand and generation, socioeconomics, water supply sources, water demand, and wastewater reuse. The Army has consulted with the U.S. Fish and Wildlife Service, Texas and New Mexico State Historic Preservation Offices, Tribes, and other consulting parties to mitigate potential impacts to biological and cultural resources. The EIS identifies mitigation to lessen adverse impacts.

Cooperating Agencies: The US Air Force (Holloman Air Force Base [AFB]) is a cooperating agency on the Final EIS. Certain proposed projects considered in the alternatives evaluated could affect Holloman AFB units that use Fort Bliss ranges and airspace for training operations.

The U.S. Army plans to issue a Record of Decision following a 30-day waiting period beginning with the date of this notice. The Record of Decision will include final mitigation measures the Army will adopt.

Copies of the Final EIS are available at the following libraries: El Paso Main Library, Irving Schwartz Branch Library, Richard Burges Branch Library, and University of Texas at El Paso Library in El Paso, TX; Alamogordo Public Library in Alamogordo, NM; and, New Mexico State University Zuhl Library and Thomas Branigan Memorial Library in Las Cruces, NM. The Final EIS may also be accessed at <http://ftblissnetzeroeis.net/index.html> or <https://www.bliss.army.mil/DPW/Environmental/EIS/Documents2.html>.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Notice of Public Comment Period for the Missouri River Recovery Implementation Committee's Proposed Charter Amendments, Missouri River, United States

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of public comment period.

SUMMARY: The Missouri River Recovery Implementation Committee, referred to as MRRIC or the Committee, is seeking comments to its proposed Charter amendments on or before April 19, 2014. MRRIC has reached tentative consensus on three (3) proposed amendments to its Charter, originally approved on July 1, 2008. Prior to seeking final consensus and recommending the amendments to the Secretary for final adoption, the Corps of Engineers, on behalf of the Committee, seeks public comments on the following tentative recommendations:

(1) *Charter amendment 1:* Section V, "Membership and Representation of Interests," should be amended to specifically add the "Osage Nation" to the list of subsection (d) Tribes, as eligible for membership in the Committee.

Background: On August 9, 2013 the MRRIC Chair received a letter from Principal Chief Red Eagle of the Osage Nation requesting the Osage Nation

become a member of MRRIC. MRRIC discussed this request and reached tentative consensus in November 2013 on a recommendation to revise the MRRIC Charter to include the Osage Nation as a member of the Committee. The Osage Nation is a federally-recognized Tribe with land near the basin and historical ties to the Missouri River.

(2) *Charter amendment 2:* Section V, "Membership and Representation of Interests," subsection (e)(i) should be amended to indicate that there will be a maximum of twenty-nine (29) stakeholder members (rather than 28).

Background: The Committee discussed the original intention to invite an equal number of stakeholder members and Tribal members to serve on the Committee. To maintain this balance when adding the Osage Nation to MRRIC, the Committee reached tentative consensus in November 2013 on a recommendation to increase the number of stakeholder members from 28 to 29.

(3) *Charter amendment 3:* Section VII, "Roles, Responsibilities and Leadership" subsection (a)(iv) should be amended, striking the phrase "for no more than three (3) additional terms of one (1) year each" such that the amended language reads as:

iv. The Chair and Vice Chair will serve or be removed with the consensus of the Committee. The term of office of the Chair and Vice Chair will be one (1) year, with the opportunity for reappointment. Should a Committee member believe the Chair and/or Vice Chair are not performing in a fair and balanced manner, it is the responsibility of the member to raise his/her concerns to the Chair or to the full Committee for consideration.

Background: The Committee discussed the need for term limits on leadership and concluded that the ability to remove the Chair and Vice Chair with consensus of MRRIC is sufficient. The Committee also concluded that it was important to have a Chair with knowledge and familiarity of the Committee and its operations and consequently it may be difficult to find many individuals who best match the needs of MRRIC. The Chair's performance will continue to be evaluated by MRRIC annually. The Committee reached tentative consensus on this recommended amendment in February 2014.

DATES: All comments to this public notice should be submitted on or before April 19, 2014.

ADDRESSES: Submit comments to U.S. Army Corps of Engineers, Attn: Mary
