BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7619-2]

Proposed Settlement Agreement, Clean Air Act Petitions For Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended ("Act"), 42 U.S.C. 7413(g), notice is hereby given of a proposed settlement agreement to address one of four issues briefed in lawsuits filed by Sierra Club and Georgia ForestWatch (collectively, "Petitioners"): *Sierra Club v. Leavitt*, Nos. 03-10262-F & 03-10263-F, and *Georgia ForestWatch v. Leavitt*, Nos. 03-10264-F and 03-10265-F (11th Cir.)

(consolidated). On or about January 16, 2003, Petitioners filed petitions for review of four orders in which the Administrator denied Petitioners' administrative petitions requesting that EPA object to operating permits issued by the Georgia Department of Natural Resources, Environmental Protection Division ("Georgia EPD"), under title V of the Act for four facilities in Georgia. The petitions for review, which have been consolidated, seek a court order requiring EPA to object to the permits based on Petitioners' allegations that the permits fail to comply with aspects of Georgia's title V program, the Act and EPA's title V implementing regulations. One of Petitioners' allegations is that EPA was required to object to the title V operating permit issued by Georgia EPD for the Monroe Power facility in Monroe (Walton County), Georgia, because the permit contains inadequate monitoring for carbon monoxide. Under the terms of the proposed settlement agreement, EPA and Petitioners (collectively, the "Parties") jointly would request that the court stay the oral argument (scheduled for January 29, 2004) and hold the consolidated cases in abeyance while Georgia EPD proposes to reopen and revise the Monroe Power title V permit to require continuous monitoring of carbon monoxide emissions from two combustion turbines and to include certain related requirements. If the permit were revised consistent with the draft permit revisions attached to the proposed settlement agreement, the Parties jointly would notify the court that their dispute concerning the Monroe Power carbon monoxide monitoring issue had been resolved and would ask that the court set a date for oral argument on the remaining issues in the consolidated cases.

DATES: Written comments on the proposed settlement agreement must be received by March 8, 2004.

ADDRESSES: Submit your comments, identified by docket ID number OGC-2004-0002, online at <http://www.epa.gov/edocket> (EPA's preferred method); by e-mail to oei.docket@epa.gov; mailed to EPA Docket Center, Environmental Protection Agency, Mailcode: 2822T, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; or by hand delivery or courier to EPA Docket Center, EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC, between 8:30 a.m. and 4:30 p.m. Monday through Friday, excluding legal holidays. Comments on a disk or CD-ROM should be formatted in Wordperfect or ASCII file, avoiding the

use of special characters and any form of encryption, and may be mailed to the mailing address above.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement

On or about January 16, 2003, Petitioners filed four petitions for review with the U.S. Court of Appeals for the Eleventh Circuit challenging four orders in which the Administrator of the EPA denied administrative petitions filed by Sierra Club and Georgia ForestWatch. The administrative petitions asked the Administrator to object to operating permits issued by the Georgia Department of Natural Resources, Environmental Protection Division ("Georgia EPD"), pursuant to title V of the Clean Air Act ("Act"), 42 U.S.C. 7661-7661f, for four facilities in Georgia: (1) King America Finishing, Inc.; (2) Monroe Power Company; (3) Shaw Industries, Inc., Plant No. 2; and (4) Shaw Industries, Inc., Plant No. 80 (collectively, "Shaw").¹ The petitions for review asked the court to order EPA to object to the permits based on Petitioners' allegations that the permits violate aspects of Georgia's title V operating permits program and fail to meet certain requirements of the Act and EPA's title V implementing regulations at 40 CFR part 70. Specifically, Petitioners sought to require EPA to object to the permits issued to King Finishing, Monroe Power and Shaw based on the State's requirements for reporting monitoring results and the content of the State's public notices of draft permits. Sierra Club also sought to require EPA to object to the King Finishing permit because Georgia EPD did not use a mailing list as one of several means of providing public notice of the draft permit. Finally, Sierra Club sought to require EPA to object to the Monroe Power permit based on allegations that the permit contains inadequate monitoring requirements for carbon monoxide ("CO") emissions from two combustion turbines. The permit relies on continuous monitoring of nitrogen
