Title: Customer Data Worksheet Request for Business Partner Record Change.

OMB Control Number: 0560-0265.

Expiration Date: December 31, 2023.

Type of Request: Revision.

Abstract: The information collection is necessary to effectively monitor critical producer data (for example, customer name, current mailing address and tax identification number) made at the request of the producer to provide, correct or update their information. The form AD-2047, Customer Data Worksheet Request for Business Partner Record, is used to collect the information from the producer to input or make changes to the information. The critical producer data are also being used to update existing producer record data and document when and who initiates and changes the record. FSA, Natural Resource Conservation Service (NRCS) and other USDA Agencies use the Business Partner database to maintain and manage their respective customer data. The necessity to monitor critical producer data in the Business Partner database was a direct result of the OMB Circular A-123 Remediation/Corrective Action Plan for County Office Operations which requires effective internal controls to be in place for Federal programs. FSA team was established and reviewed and documented key controls related to all material producer accounts. FSA also included the analysis on a review of record. The number of respondents increased by 51,476 to account for additional customers due to additional USDA agencies. The average time per response is 3 minutes for the form of AD-2047. The burden hours increased by 2,674 in the request due to the increase in customer records added since the last OMB approval. For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per response multiplied by the estimated total annual responses.

Estimated Respondent Burden: Public reporting burden for this collection of information is estimated to average 0.05 hours per response.

Type of Respondents: FSA, NRCS, AMS, and RD customers currently residing in the Business Partner database.

Estimated Number of Respondents: 161,250.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Number of Responses: 161,250.

Estimated Total Annual Burden on Respondents: 8,063 hours.
