SUPPLEMENTARY INFORMATION:

Background

On January 10, 2006, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on seamless pipe from Romania. See *Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Preliminary Results of Antidumping Duty Administrative Review*, 71 FR 1509 (January 10, 2006) (*Preliminary Results*). We invited interested parties to comment on the *Preliminary Results*. We did not receive comments from interested parties, and we did not make any changes to the margin for the final results. The Department has conducted this

administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The products covered by the order are seamless carbon and alloy (other than stainless) steel standard, line, and pressure pipes and redraw hollows produced, or equivalent, to the ASTM A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-335, ASTM A-589, ASTM A-795, and the API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of the order also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters described below, regardless of specification. Specifically included within the scope of the order are seamless pipes and redraw hollows, less than or equal to 4.5 inches (114.3 mm) in outside diameter, regardless of wall-thickness, manufacturing process (hot finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish.

The seamless pipes subject to the order are currently classifiable under the subheadings 7304.10.10.20, 7304.10.50.20, 7304.31.30.00, 7304.31.60.50, 7304.39.00.16, 7304.39.00.20, 7304.39.00.24, 7304.39.00.28, 7304.39.00.32, 7304.51.50.05, 7304.51.50.60, 7304.59.60.00, 7304.59.80.10, 7304.59.80.15, 7304.59.80.20, and 7304.59.80.25 of the Harmonized Tariff Schedule of the United States (HTSUS).

Although the HTSUS subheadings are provided for convenience and U.S. Customs and Border Protection (CBP) purposes, our written description of the merchandise subject to the scope of this order is dispositive. For a further and more specific description of the scope of the order, please see *Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Preliminary Results of Antidumping Duty Administrative Review and Preliminary Determination Not to Revoke in Part*, 70 FR 24520 (May 10, 2005).

Facts Available

For these final results, we continue to find that S.C. Silcotub S.A. did not act to the best of its ability by not submitting a response to our antidumping duty questionnaire, thus withholding information necessary to calculate an accurate dumping margin and information which we requested. Accordingly, we continue to find that the use of adverse facts available is

warranted under section 776 of the Act. For a detailed discussion of our application, selection, and corroboration of the rate we selected as adverse facts available, see *Preliminary Results*, 71 FR at 1510.

Final Results of Review

As a result of our review, we determine that a weighted-average dumping margin of 15.15 percent exists for S.C. Silcotub S.A. for the period August 1, 2004, through July 31, 2005.

Duty Assessment and Cash-Deposit Requirements

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. Because we are applying adverse facts available to all exports of subject merchandise produced or exported by S.C. Silcotub S.A., we will instruct CBP to assess the final percentage margin against the entered customs values on all applicable entries during the period of review. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review.

The following deposit requirements will be effective upon publication of these final results of this administrative review for all shipments of seamless pipe from Romania entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided by section 751(a)(2)(C) of the Act: (1) The cash-deposit rate for S.C. Silcotub S.A. will be 15.15 percent; (2) for merchandise exported by producers or exporters that were previously reviewed or investigated, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the producer or exporter received an individual rate; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash-deposit rate shall be 13.06 percent, the all-others rate established in the 2002-03 administrative review. See *Notice of Final Results of Antidumping Duty Administrative Review and Final Determination Not To Revoke Order in Part: Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe From Romania*, 70 FR 7237 (February 11, 2005).
