SUPPLEMENTARY INFORMATION: The FDIC is requesting OMB approval for the following collection of information:

Title: FDIC National Survey of Unbanked and Underbanked Households.

OMB Number: 3064-0215.

Frequency of Response: Once.

Affected Public: Individuals residing in U.S. Households.

Estimated Number of Respondents: 40,000.

Average Time per Response: 9 minutes (0.15 hours) per respondent.

Estimated Total Annual Burden: 6,000 hours.

General Description of Collection: The FDIC is committed to expanding Americans' access to safe, secure, and affordable banking services, which is integral to the FDIC's mission of maintaining the stability of and public confidence in the U.S. financial system. The FDIC National Survey of Unbanked and Underbanked Households (Household Survey) is one contribution to this end. The Household Survey is also a key component of the FDIC's compliance with a Congressional mandate contained in section 7 of the Federal Deposit Insurance Reform Conforming Amendments Act of 2005 (Reform Act) (Pub. L. 109-173), which calls for the FDIC to conduct ongoing surveys "on efforts by insured depository institutions to bring those individuals and families who have rarely, if ever, held a checking account, a savings account or other type of transaction or check cashing account at an insured depository institution (hereafter in this section referred to as the 'unbanked') into the conventional finance system." Section 7 further instructs the FDIC to consider several factors in its conduct of the surveys, including: (1) "what cultural, language and identification issues as well as transaction costs appear to most prevent 'unbanked' individuals from establishing conventional accounts;" and (2) "what is a fair estimate of the size and worth of the 'unbanked' market in the United States."

The Household Survey collects information on bank account ownership which provides a factual basis for measuring the number and percentage of households that are unbanked. The Household Survey is the only population-representative survey conducted at the national level that provides state-level estimates of the size and characteristics of unbanked households for all 50 states and the District of Columbia. The Household Survey also collects information from unbanked households about the reasons that they do not have a bank account and their interest in having a bank account. Increasingly, financial products and services are provided by nonbanks, many through the use of a mobile phone app. Households are selecting different combinations of bank and nonbank financial products and services to meet their core financial needs. Consequently, the Household Survey collects information on whether and how households use a wide range of bank and nonbank financial products and services.

To obtain this information, the FDIC partners with the U.S. Census Bureau, which administers the Household Survey supplement (FDIC Supplement) to households that participate in the Current Population Survey (CPS). The supplement has been administered every other year since January 2009. The previous survey questionnaires and survey results can be accessed through the following link: <http://fdic.gov/analysis/household-survey>.

Consistent with the statutory mandate to conduct the surveys on an ongoing basis, the FDIC already has in place arrangements for conducting the eighth Household Survey as a supplement to the June 2023 CPS. Prior to finalizing the 2023 survey questionnaire, the FDIC seeks to solicit public comment on whether changes to the existing instrument are desirable and, if so, to what extent. It should be noted that, as a supplement of the CPS survey, the Household Survey needs to adhere to specific parameters that include limits in the length and sensitivity of the questions that can be asked of CPS respondents. Interested members of the public may obtain a copy of the proposed survey questionnaire on the following web page: <https://www.fdic.gov/resources/regulations/federal-register-publications/2023/2023-household-survey-questionnaire.pdf>.

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether

the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
